CORPORATE GOVERNANCE REPORT

42 FINANCIAL STATEMENTS

**155** NOTICE OF ANNUAL GENERAL MEETING

### CHAIRMAN'S MESSAGE

#### **Dear Shareholders,**

I am pleased to present to you BRC Asia Limited's ("**BRC** Asia", or the "**Group**") Annual Report for the financial year ended 30 September 2022 ("**FY2022**").

Due to Covid-19 disruptions, FY2022 was the first year we witnessed the coming together of many of the synergies envisaged from the acquisition of Lee Metal in 2018. One has been the reaping of substantial benefits from economies of scale, which has penetrated the various functions of the Group, from procurement, to sales, credit control, logistics, production, etc. This could not have happened so successfully without good leadership, which catalysed the relatively seamless merging of Lee Metal into the Group, as well as the dedication and hard work at all levels of the organisation.

Further, the timings of the many crises the world found itself in 2022, from the Russia-Ukraine conflict to the multiple interest rate hikes around the world led by the US Federal Reserve and China's economic malaise as it continued to fight Covid-19, meant that the Group was relatively sheltered from such turbulences during its financial year that ended on 30 September 2022.

Efforts by the Singapore Government to relax Covid-19 restrictions facilitated the recovery transition of the economy. In its November 2022 statement, the Ministry of Trade and Industry ("**MTI**") projected the country's GDP in 2022 to expand by 3.5% year-on-year ("**y-o-y**").<sup>1</sup> Likewise, the construction sector displayed a healthy growth trajectory. The relaxation of border restrictions and the removal of sectoral Covid-19 measures helped resolve some of the labour bottlenecks faced earlier. In tandem with that, construction output also increased as industry players attempted to clear their project backlogs.

#### FINANCIAL PERFORMANCE

As a result, BRC Asia achieved an unprecedented and record-breaking set of financial results in FY2022.

Record volumes and higher steel prices drove revenue to \$\$1.70 billion, a 45% y-o-y jump from the \$\$1.17 billion recorded in FY2021. These higher delivery volumes also pushed gross profit higher by 87% y-o-y from \$\$82.1 million in FY2021 to \$\$153.7 million in FY2022. Gross profit margin increased from 7.0% to 9.0% during the same period, which was mainly due to the net reversal of provision for onerous contracts of \$\$12.8 million.

FY2022 operating profit came in at S\$107.4 million, improving by 84% y-o-y. Operating profit margin rose by 1.3 percentage points ("**ppts**") from 5.0% in FY2021 to 6.3% in FY2022.

The Group achieved net profit of \$\$90.2 million in FY2022, which was almost double of last year's number. Net profit margin expanded by 1.3 ppts to 5.3% in FY2022. Earnings per share increased from 19.58 Singapore cents last year to 33.03 Singapore cents this year.

As at 30 September 2022, BRC Asia's balance sheet remained at a robust standing with net assets of S\$398.8 million. This was higher than the S\$300.9 million recorded a year ago. The Group ended FY2022 with a net asset value per ordinary share of S\$1.45.

#### **SOLIDIFYING OUR BASE**

In October 2021, BRC Asia successfully raised \$\$45.9 million via the issuance of 31.0 million new ordinary shares to Hong Leong Asia Investments Pte. Ltd. ("**HLA**"). The Group had since utilised the proceeds to pare down its outstanding bank borrowings. The equity recapitalisation exercise resulted in a healthier balance sheet standing for BRC Asia, which would be helpful in the challenge-filled FY2023.

#### OUTLOOK

Looking ahead, we will be focusing on realising our robust order book of S\$1.4 billion as at September 2022. At the same time, the Group shall remain active in tender activities as we seek to continuously replenish our order book.

The Building and Construction Authority ("**BCA**") estimated total construction demand to range between S\$25 billion and S\$32 billion per annum from 2023 to 2026. The public sector is expected to contribute around S\$14 billion to S\$18 billion per year during the period, which will roughly be equally distributed between building projects and civil engineering works. Some of the major infrastructure developments in the pipeline include MRT projects, the Toa Payoh Integrated Development, the redevelopment of Alexandra hospital and a new integrated hospital in Bedok. Meanwhile, the remaining S\$11 billion to S\$14 billion per year will come from the private sector.<sup>2</sup>

BRC Asia is expected to be a key beneficiary of the robust construction pipeline given our market leading position in the steel reinforcement space. In recognition of the unprecedented and recordbreaking set of financial results achieved in FY2022, our dividend for FY2022 would amount to 18 Singapore cents per share, representing a dividend pay-out ratio of around 54%.

Having said that, the successful implementation of these developments is very much predicated on a healthy economic landscape. At the moment, the possibility of a global hard landing in 2023 appears high. The elevated interest rate environment will pose financing and credit risks while the energy crisis continues to put pressure on electricity costs. Beyond that, there remains a shortfall in the supply of skilled and experienced labour locally despite the improvement seen in FY2022. The past few months had also seen a general and substantial slowing down in the pace of construction island-wide, as the industry reflected on its safety practices under the direction of the authorities. In the short term, we can expect these factors to hamper the performance of the companies in the construction supply chain.

#### **REWARDING SHAREHOLDERS**

In recognition of the unprecedented and record-breaking set of financial results achieved in FY2022, the Group has proposed a special dividend of 6 Singapore cents per share, in addition to a final dividend of 6 Singapore cents per share. In total, our dividend for FY2022 would amount to 18 Singapore cents per share, representing a dividend pay-out ratio of around 54%.

Looking ahead, we remain cognisant of the macroeconomic headwinds that lie ahead and will continue to exercise caution in our business expansion. Given our multi-decade industry experience and market dominance, I am confident that BRC Asia will be able to deliver the best value for our stakeholders in the new financial year despite the obstacles.

MR. TEO SER LUCK CHAIRMAN AND INDEPENDENT DIRECTOR

#### 尊敬的各位股东

我很荣幸在此向您呈现BRC Asia Limited("BRC亚洲"或"集团")截至2022年9月30日财政年度("2022财年")的年度报告。

尽管受到新冠疫情的影响,我们在2022财年仍然见证了2018 年收购Lee Metal后所带来的协同效益,其中是从规模经济 中获取可观的利益。此规模经济效益已体应现在集团的各个 职能部门,从采购到销售、风险控制、物流、生产等经营活 动。这些成功离不开集团良好的领导力以及集团各级的奉献 和辛勤工作,促使Lee Metal相对无缝地与集团合并。

此外,2022年世界各地涌现多项危机,包括从俄乌冲突到由 美国联邦储备局引领的世界各地多次加息,以及中国因持续 抗击新冠疫情而引起的经济萎缩。集团的2022财年的良好业 绩也从侧面印证了本集团抵御此类宏观经济风险的能力。

新加坡政府放松新冠防控的举措促进了经济的复苏,在其 2022年11月的公告中称,贸工部("**MTI**")预计本国2022年的 GDP的年化增长率为3.5%。'同时,建筑业也呈现出健康的增 长轨迹。边境限制的放宽和行业内新冠防控措施的取消有助 于解决之前面临的一些劳动力瓶颈问题。与此同时,由于行 业内各公司逐步交付其积压项目,建筑业的产出也有所增 加。

#### 财务表现

总体而言,BRC亚洲在2022财年取得了前所未有的、破纪录 的财务业绩。

创纪录的订单交付量和钢材价格增长推动总收入至17亿新元,同比2021财年的11.7亿新元增长45%。订单交付量的增 长也推动了毛利同比增长87%,从2021财年的8,210万新元增 长至2022财年的1.537亿新元。同时,毛利率从7.0%增长到 9.0%,其中关键因素之一是1,280万新元的潜亏计提转回。

2022财年的营业利润为1.074亿新元,同比增长84%。营业利 润率从2021财年的5.0%上升到2022财年的6.3%,同比增加1.3 个百分点。

集团2022财年的净利润达到9,020万新元,同比增长近两 倍。2022财年的净利润率上涨1.3个百分点至5.3%。每股收益 从去年的0.1958新元增加到今年的0.3303新元。

截至2022年9月30日,BRC亚洲的资产负债表仍然保持强劲, 净资产为3.988亿新元,高于2021年的3.009亿新元。每股净 资产为1.45新元。

#### 巩固我们的基础

2021年10月,BRC亚洲通过向Hong Leong Asia Investments Pte. Ltd.("**丰隆亚洲投资**")发行3,100万股新普通股,成功筹 集了4,590万新元。此后,集团利用这笔资金偿还了银行借 款。股权资本重组工作使BRC亚洲的资产负债表更加健康, 这对于充满挑战的2023财年运营非常有帮助。

#### 未来展望

展望未来,我们将专注于交付各项订单(截止到2022年9月订 单总额约14亿新元)。同时,本集团将继续积极参加招标活 动,以不断扩充我们的总订单量。

新加坡建设局("**BCA**")预计,从2023年到2026年,每年的总建 筑市场需求在250亿新元到320亿新元之间。其中,公共设施 预计每年将贡献约140亿至180亿新元,这将均匀分配在建筑 项目和土木工程之间。一些正在筹备中的主要基础设施开发 项目包括地铁项目、大巴窑综合开发项目、亚历山大医院的 重建项目以及位于勿洛的新综合医院项目。同时,其余110亿 至140亿新元的年度收入将来自私营部门<sup>2</sup>。

尽管如此,这些业绩的取得很大程度上取决于健康的经济环境。在当前经济形势下2023年全球经济"硬着陆"的可能性很大。高昂的利率将引发融资和信贷风险,而能源危机将继续对电力成本施压。除此之外,尽管劳动力供应在2022财年有一定改善,但本地的熟练和有经验的劳动力供应仍然不足。过去几个月,由于各类安全事故频发,政府加强了建筑业的安全管控要求,全岛的建筑施工进程也普遍大幅放缓。 在短期内,我们可以预见这些因素将会阻碍建筑行业供应链上下游的运营业绩。

#### 回馈股东

鉴于2022财年取得了前所未的、破记录的财务业绩,集团提 议派发每股0.06新元的末期股息以及每股0.06新元的特别股 息。集团2022财年的总股息达到每股0.18新元,折合成派息 率约为54%。

展望未来,我们仍然面对未来的宏观经济的不确定性,因此 我们将继续谨慎地进行业务扩张。基于集团数十年的行业经 验和市场主导地位,我相信BRC亚洲将能够在新的财政年度为 我们的股东创造最佳价值。

# OPERATIONS & FINANCIAL REVIEW

#### **OPERATIONAL REVIEW**

FY2022 was the first full year in which we saw the realisation of many of the synergies envisaged when we acquired Lee Metal in 2018, after the Covid-19 pandemic disrupted much of our business operations during our last two financial years. Relatively free of Covid-19 restrictions and uncertainties caused by the pandemic in Singapore in FY2022, the Group was able to focus on delivering on our substantial sales order book, which stood at S\$1.4 billion as at 30 September 2022.

Locally, Singapore's economic growth remained comparatively stable with year-on-year ("y-o-y") expansions of 6.1%, 3.9%, 4.5%, and 4.1% recorded in the respective quarters of FY2022.1 Similarly, growth in the local construction sector showed stable growth over this period, expanding 2.9%, 3.2%, 4.8% and 7.8% respectively on a y-o-y basis. Having said that, the value-added of the sector to the economy over this period remained 26.0%<sup>2</sup>, 25.3%<sup>3</sup> 23.7%<sup>4</sup> and 18.0%<sup>5</sup> respectively below pre-pandemic levels due to labour shortages. Be that as it may, this relative stability allowed for more consistent demand day-to-day and, with that, we were able to focus on what we do best - delivering our customised reinforcing steel solutions and products on a Just-In-Time basis to assist our customers in Building Better. Furthermore, we were able to leverage on our newfound scale and procurement capabilities to expand our market share in local standard-length rebar sales, as well as widen the scope of our general steel trading activities outside of Singapore, which compensated for the generally slower pace of construction progress in local projects over the year.

#### **REVENUE AND PROFITABILITY**

Taken together, BRC Asia's revenue grew by 45% y-o-y to S\$1.70 billion in FY2022. The Group benefitted from higher sales volume, as well as elevated steel prices.

Gross profit increased by 87% y-o-y to S\$153.7 million in FY2022. Meanwhile, gross profit margin rose to 9.0% in FY2022 from 7.0% a year ago. The increase was primarily due to a net reversal of the provision for onerous contracts of S\$12.8 million in FY2022, as compared to a provision of S\$45.3 million in FY2021.

In tandem with the revenue growth, overall operating expenses climbed 42% y-o-y to \$\$54.1 million in FY2022. Distribution expenses were 17% higher y-o-y at \$\$6.7 million while administrative expenses rose 60% y-o-y to \$\$29.5 million. Higher salaries and staff-related costs, as well as higher trade credit insurance expenses, contributed to the latter's increase. Finance costs were up by 53% y-o-y to \$\$7.2 million in FY2022 due to rising interest rates and increased borrowings. Operating profit came in at \$\$107.4 million in FY2022, growing by 84% y-o-y.

Finally, the Group achieved its highest-ever net profit of S\$90.2 million in FY2022, up by 92% y-o-y. Net profit margin increased 1.3 percentage points from 4.0% in FY2021 to 5.3% in FY2022. Earnings per share also increased to 33.03 Singapore cents in FY2022, as compared to 19.58 Singapore cents in FY2021.

#### **FINANCIAL POSITION**

As at 30 September 2022, the Group maintained a robust balance sheet position with net assets of S\$398.8 million and net asset value per ordinary share of S\$1.45, up from S\$300.9 million and S\$1.24 per share a year ago.

In line with increased sales, trade and other receivables ended S\$28.2 million higher while the Group's contract liabilities increased by S\$6.9 million due to higher prepayments from customers.

The Group's cash and cash equivalents position remained strong at \$\$154.6 million as at 30 September 2022. The net increase in cash and cash equivalents of \$\$70.4 million was primarily attributed to cash flows generated from operating activities of \$\$66.1 million, proceeds from share issuance of \$\$45.9 million and net proceeds from bills payable of \$\$53.9 million.

#### LOOKING AHEAD

The relatively stable and benign economic conditions at home over FY2022 contrasted greatly with what was happening globally, where an ongoing Russia-Ukraine war, a looming recession in the US and China's pandemicdriven economic malaise look to make the coming year a much more challenging one, with low growth rates/ recessions, persistently high inflation, geopolitical tensions and heightened energy costs and uncertainty. Taking the increasingly volatile global situation into consideration, the Ministry of Trade and Industry ("**MTI**") forecasted local GDP growth to range only between 0.5% – 2.5% for 2023.<sup>1</sup>

For the local construction sector, the Building and Construction Authority ("**BCA**") projected total construction output in 2023 to range between S\$25 billion and S\$32 billion<sup>6</sup>, gradually heading back to pre-pandemic levels. However, the generally slow progress of local construction projects over the last 6 months is expected to continue in the first quarter of 2023, particularly as the sector continues to grapple with the high incidence of accidents due to a lack of experienced migrant workers. This does not bode well for the local reinforcing steel sector's daily project delivery volumes in the short term and, coupled with surging manpower and energy costs, are expected to lead to a compression of profit margins for the industry.

In the coming year, the Group is committed to continue digitalising our business and operational processes, as well as introducing more automation through robotics into our In the coming year, the Group is committed to continue digitalising our business and operational processes, as well as introducing more automation through robotics into our manufacturing lines.

#### **APPRECIATION**

Our stellar performance in FY2022 was only made possible through the collective effort of both external and internal parties. In closing, I would like to express my heartfelt appreciation to our customers, business partners and associates for their continued support. I would also like to extend my gratitude to our management team and staff for their dedication and hard work. Finally, I would like to thank our shareholders for their unwavering loyalty and trust. ### 运营及财务回顾

#### 运营回顾

2022财年,是我们在2018年收购Lee Metal时,设想的许多协同效应得以实现的第一个年度。在此之前的两个财年,新冠疫情蔓延扰乱了我们大部分业务运营。在2022财年,得益于新冠疫情防控的相对放宽和疫情所带来的不确定性的降低,集团能够专注于交付大量在手订单。截至2022年9月30日,集团在手订单总额为14亿新元。

新加坡本地的经济增长保持相对稳定,在我们2022财年的 各个季度分别达成6.1%、3.9%、4.5%和4.1%的同比增长。 同时,本地建筑业也呈现出稳定的增长态势,同比增长 2.9%、3.2%、4.8%和7.8%。尽管如此,同期建筑业对经济增 长的贡献仍低于疫情前,分别为26.0%<sup>2</sup>、25.3%<sup>3</sup>、23.7%<sup>4</sup>和 18.0%<sup>5</sup>,劳动力短缺是主要原因。这种相对稳定的经济增长 使得建筑业的日需求量更加稳定,我们也能够专注于我们最 擅长的事情—基于准时制生产("Just-In-Time")提供我们定 制化的钢筋解决方案和产品,帮助我们的客户实现更好的建 设。此外,我们能够利用新引入的规模经济效益和采购能 力,扩大我们本地标准长度螺纹钢销售的市场份额,以及扩 大我们在新加坡以外的一般钢材贸易和分销活动的范围,以 此弥补今年本地项目施工进度普遍放缓带来的影响。

#### 收入和盈利能力

就总体而言,在2022财年,BRC亚洲的收入同比增长45%,达 到17亿新元,这得益于销售量及钢铁价格的上涨。

在2022财年,毛利润同比增长87%,达到1.537亿新元。同时,毛利率从一年前的7.0%上升到2022财年的9.0%。这一增长主要是来自于2022财年1,280万新元的潜亏计提转回,而2021财年的记录为4,530万新元的潜亏计提。

与收入增长趋势一致,2022财年的整体运营费用同比攀升42% 至5,410万新元。其中,分销费用同比增长17%,达到670万新 元,行政费用同比增长60%,达到2,950万新元。工资和员工 相关费用的增长,以及贸易信用保险费用攀升,都是引起后 者增长的原因。由于利率上升和借款增加,2022财年的财务 费用同比上升53%至720万新元。2022财年的营业利润为1.074 亿新元,同比增长84%。

集团在2022财年实现了有史以来最高的净利润9,020万新元, 同比增长92%。净利润率从2021财年的4.0%上升至2022财年的 5.3%。2022财年的每股收益也增加到0.3303新元,而2021财 年为0.1958新元。 未来或许极具挑战,但是我相 信,凭借我们强大的业务基础 和由经验丰富的专业人员组成 的兢兢业业的团队,我们将同 舟共济,共度难关,同时继续 从内部强化集团。

#### 财务状况

截至2022年9月30日,集团的资产负债表保持稳健,净资产总 额为3. 988亿新元,每股净资产为1. 45新元,分别高于去年同 期的3. 009亿新元和1. 24新元。

由于销售收入的增长,2022财年,贸易及其他应收账款增加 了2,820万新元。集团的合同负债增加了690万新元,其主要 原因是客户的预付款增加。

截至2022年9月30日,集团的现金和现金等价物为1.546亿新 元,仍然保持强劲。现金及现金等价物净增7,040万新元,主 要来源于经营活动产生的净现金流6,610万新元,发行股票所 得的4,590万新元和应付票据净值5,390万新元。

#### 展望未来

2022财年,国内相对稳定和良性的经济状况与全球的危机态 势形成了巨大的反差。受到正在进行的俄乌战争、美国迫在 眉睫的经济衰退和中国由持续抗击新冠疫情而引起的经济萎 靡的影响,未来一年将会是更具挑战性的一年,也将伴随着 低迷的经济增长速度、持续的高通胀、地缘政治紧张局势、 持续增长的能源成本和其他未知挑战。考虑到日益动荡的全 球局势,贸工部("**MTI**")预测2023年本地GDP增长仅在0.5%至 2.5%之间<sup>1</sup>。

新加坡建设局("BCA")预计2023年的本地建筑业总产值将在 250亿新元至320亿新元<sup>6</sup>之间,逐步回到新冠疫情前的水平。 然而,在过去6个月里,本地建筑项目的进展普遍缓慢,此态 势预计将延续至2023年第一季度。尤其受到因缺乏有经验的 外籍劳工而引起的高事故率的影响,本地钢筋行业的日常项 目交付量也因此在短期内会受到一定影响,再加上人力和能 源成本激增,预计该行业的利润率将会被压缩。

在未来一年,集团将致力于业务和运营流程的数字化,并通 过机器人技术在我们的生产线上引入更多自动化操作流程。 在业务扩张方面,我们一直在积极寻找国际上的发展机会并 期望在未来一年扩大我们在亚洲的影响力。

未来或许极具挑战,但是我相信,凭借我们强大的业务基础 和由经验丰富的专业人员组成的兢兢业业的团队,我们将同 舟共济,共度难关,同时继续从内部强化集团。

#### 致谢

我们在2022财年取得的出色业绩是集团内外共同努力的结 果。我想对我们的客户、商业伙伴和同事的长期以来的支持 表示衷心的感谢。我还想对我们的管理团队和员工的敬业奉 献表示感谢。最后,我想感谢我们的股东,感谢他们坚定不 移的支持和信任。随着我们迈向新的财政年度,BRC亚洲将一 如既往地努力为我们的利益相关者提供最好的回馈。

#### **Principle 2: Board Composition and Guidance**

The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the Company.

#### **Composition and Balance**

The Board consists of five Independent Directors, three Non-Independent and Non-Executive Directors and three Executive Directors. The Nominating Committee, with concurrence of the Board, is satisfied that the current Board, Board Committee size and composition are considered appropriate for the Company's needs and nature of the operations, with an objective of achieving a good mix and diversity of skills, experience, gender and knowledge of the business to ensure that the Board will be able to make satisfactory and independent decisions regarding the affairs of the Company.

Every Board member is encouraged to constantly keep abreast of developments in regulatory, legal and accounting frameworks that are of relevance to the Group through the participation in external training seminars and courses. The costs incurred for seminars and trainings are borne by the Company.

Regular briefings and updates on developments in accounting and governance standards are conducted by the external auditor, Ernst & Young LLP, and the internal auditor, Yang Lee & Associates.

The Directors also attend other appropriate courses and seminars to keep abreast with changes in regulations, financial reporting standards, continuing listing obligations as well as industry-related matters.

As at the date of this report, all Directors have attended the prescribed sustainability training course authorised by the Singapore Exchange Regulation Pte. Ltd. ("SGX RegCo") to equip themselves with basic knowledge on sustainability matters.

The Nominating Committee reviews the existing Board composition annually, to ensure the existing Board and Board Committees are appropriate. The Nominating Committee is of the view that there is a strong and independent element on the Board as Independent Directors and Non-Executive Directors form majority of the Board, thereby eliminating the risk of a particular group dominating the decision-making process. The Board ensures that the process of decision-making by the Board is independent and is based on collective decision, without any concentration of power.

The Independent Directors provide, amongst others, strategic guidance to the Company based on their professional knowledge, in particular, assisting to constructively develop proposals on strategies. They also contribute to the Board's processes by monitoring and reviewing Management's performance. When dealing with challenging proposals or decisions, they bring independent judgement to bear on business activities and transactions which may, involve, among other things, conflict of interest and other complexities.

To facilitate more effective checks on Management, a meeting was held between the Independent Directors, without the presence of Management, during the financial year. Subsequent feedback was provided by the Chairman of the meeting to the Chairman of the Board.

The Company has put in place a Board Diversity Policy. This policy sets out the framework for promoting diversity within the Board. The Directors recognises the benefits of diversity of experience, age, skill sets and gender as a key element to support the attainment of objective and development of the Group. The Board conducts annual reviews to assess if the existing attributes and core competencies of the Board are complementary and contributes to the efficacy of the Board, of which enables the Board to maintain and/or enhance balance and diversity.

The Board has reviewed and believes that its composition satisfies a diversity of skills, knowledge, experience and gender, as further described:

	Number of Directors	Proportion of Board
Core Competencies		
Accounting/Finance/Legal/Corporate governance	8	73%
Industry/Customer based-knowledge or experience	7	64%
Strategic planning experience	9	82%
Gender		
Male	9	82%
Female	2	18%
Age		
> 60	1	9%
51-60	5	46%
40-50	4	36%
< 40	1	9%

The Board members have a range of core competencies that would provide effective directive for the Group. In addition, the Board has two female directors (out of a total of 11 directors) and the ages of our Directors range from early 30s to 60s. Accordingly, the current composition of the Board is well diversified.

#### Principle 3: Chairman and Chief Executive Officer

### There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers of decision-making.

Under Provision 3.1 of the Code, the Chairman and the Chief Executive Officer are to be separate persons to ensure an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision making. Mr. Teo Ser Luck was appointed as Independent and Non-Executive Chairman of the Company on 28 November 2017 and Mr. Seah Kiin Peng was appointed as Chief Executive Officer of the Company on 26 September 2018. The Chairman and the Chief Executive Officer are not immediate family members.

The Chairman leads the Board and has a clear role that is distinct from that of the Chief Executive Officer. He is responsible for, amongst others:

The Chief Executive Officer is responsible for implementing the Group's strategies and policies as well as the daily management and operations of the Group.

During the year, the Board has reviewed the need for appointing a lead independent director for the Company. Given that the Chairman of the Board is independent and there have been no situations in which the Chairman of the Board is noted to have conflicts, the Board resolved that no lead independent director is required.

The Board has no dissenting view on the Chairman's statement to the Shareholders for the financial year under review.

#### **Principle 4: Board Membership**

### The Board has a formal and transparent process for the appointment and re-appointment of Directors, taking into account the need for progressive renewal of the Board.

The Nominating Committee is governed by its adopted written terms of reference and its functions are to:

- review and determine annually, and, as and when circumstances require, if a Director is independent;
- review where a Director has multiple Board representations, whether the Director is able to and has been adequately carrying out his/her duties as Director, taking into consideration the number of listed Company Board representations of the Directors and other principal commitments;
- recommend Directors who are retiring by rotation to be put forward for re-election. The Constitution of the Company requires at least one-third of the Directors (or if their number is not a multiple of three, the number nearest to, but not less than one-third) shall retire from office by rotation every year and each Director to retire from the office at least once every three years;
- review and approve any new employment of related persons and the proposed terms of their employment;
- recommend to the Directors candidates for Key Executive Officer positions and candidates for directorship (including executive directorships);
- review succession plans for Key Executive Officers and recommend them to the Board for approval; and

The process for the short-listing, selection and appointment of all new Directors is spearheaded by the Nominating Committee. In the selection and nomination of new Directors, the Nominating Committee taps on the resources of the Directors' personal contacts for recommendation of potential candidates. External help (for example, open advertisement, executive search, consultants) may be used to source for potential candidates. The Nominating Committee meets with the short-listed potential candidate(s) to assess their suitability and to ensure that the candidate(s) is/are aware of the expectations to be met before a decision is made for recommendation to the Board for approval. For any new appointments, the Nominating Committee will request female candidates to be fielded for consideration.

All Board appointments are made based on merits, in the context of skills, experience, core competencies, independence and other relevant factors, having due regard for the benefits of diversity on the Board and the potential contributions that the selected candidate(s) will bring to the Board.

During the financial year, the appointments of Mr. Stephen Ho Kiam Kong, Ms. Kwek Pei Xuan and Mr. Toh Kian Sing as new Directors of the Company have been reviewed by the Nominating Committee and endorsed by the Board. Upon appointment to the Board, each of them received a formal letter which sets out their duties and obligations as Directors. The Company conducted an induction programme for each newly appointed Director to familiarise the new Directors with the Group's businesses, strategic direction, core values, corporate governance practices and in the case of appointments to any of the board committees, the roles and responsibilities of such committees. All questions raised by the new Directors in relation to businesses, operations and practices are addressed by the executive Directors, key executives, auditors and/or company secretaries.

Under Provision 2.1 of the Code, an "independent" Director is one who is independent in conduct, character and judgement, and has no relationship with the Company, its related companies, its substantial Shareholders or its Officers that could interfere, or be reasonably perceived to interfere, with the exercise of the Director's independent business judgement in the best interests of the Company.

Mr. Teo Ser Luck, Mr. He Jun, Mr. Joel Leong Kum Hoe, Ms. Chang Pui Yook and and Mr. Toh Kian Sing have confirmed that they and their immediate family members are not employed or have been employed by the Company or any of its related Companies for the current and any of the past three financial years and whose remuneration is determined by the Remuneration Committee. They have also confirmed that they do not have any relationship with the Company, its related companies, its substantial Shareholders or its Officers that could interfere, or be reasonably perceived to interfere, with the exercise of the Director's independent business judgement with a view to the best interests of the Group.

Pursuant to SGX-ST Listing Rule 210(5)(d)(iii) which take effect from 1 January 2022, an Independent Director who has served on Board for an aggregate period of more than nine or more years will be subject to approval of (i) all shareholders; and (ii) all shareholders, excluding shareholders who are Directors and Chief Executive Officer of the Company (and their associates). As of the date of this report, there is no Independent Director served for an aggregate period of nine or more years from the date of his/her first appointment.

During the year, the Nominating Committee has reviewed the independence of all Independent Directors and is satisfied that there are no relationships which would deem any of them not to be independent. The Nominating Committee has considered the relationships identified by the Code and, additionally, that the Independent Directors are also independent from substantial shareholders of the Company. No individual or small group of individuals dominates the Board's decision-making process.

#### **Re-election of Directors**

The Constitution of the Company states that at least one-third of the Directors (or if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office and all Directors shall retire from office at least once every three years. A retiring Director shall be eligible for re-election and a Director retiring at a meeting shall retain office until the close of the meeting, whether adjourned or not.

When considering the re-nomination of Director for re-election, the Nominating Committee would take into account the time commitment by the Board members with multiple board representation. For Executive Directors, the Nominating Committee resolved that each of them shall hold not more than three directorships in other listed companies and non-governmental organisation. For Independent Directors and Non-Executive Directors, the Nominating Committee is satisfied that they are able to carry out and have been carrying out their duties as a Director of the Company and sufficient time and attention have been given to the affairs of the Company. Therefore, it has decided not to fix a numerical limit on the number of directorships that they can hold.

During the financial year under review, the Board has experienced minimal competing time commitments among its members as Board meetings are planned and scheduled well in advance.

\* "Principal Commitments" has the same meaning as defined in the Code of Corporate Governance 2018

The Board had accepted the Nominating Committee's recommendation to seek approval from the Shareholders at the forthcoming Annual General Meeting to re-elect Mr. Seah Kiin Peng, Mr. Xu Jiguo, Mr. Stephen Ho Kiam Kong, Ms. Kwek Pei Xuan, Mr. Darrell Lim Chee Lek and Mr. Toh Kian Sing, who will be retiring according to regulations of the Constitution of the Company, as Directors of the Company.

In reviewing the re-nomination of the Board members who are due for re-election as Directors of the Company, the members of the Board concerned abstains from voting on the resolution in respect of his/her own re-nomination as a Director.

#### Principle 5: Board Performance

### The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its Board Committees and individual directors.

The Company has in place a system to assess the Board's performance as a whole, each Board Committee separately, and also each Director individually. With the recommendation of the Nominating Committee, the Board uses objective performance criteria to evaluate the Board's performance, bearing in mind that each member of the Board contributes in a different way to the success of the Company and Board decisions are made collectively. To-date, no external facilitator has been engaged for the purposes of Board assessment.

On an annual basis, the Nominating Committee in consultation with the Chairman of the Board, will review and evaluate the performance of the Board as a whole. The qualitative criteria used to evaluate the overall Board performance includes the composition of the Board, information flow to the Board, Board procedures, corporate strategy and planning, risk management and accountability as well as matters concerning Key Executive Officers and standard conduct of its Board members. The Nominating Committee will evaluate the process for performance evaluation review and its effectiveness from time to time. The Chairman of the Board will act on the results of the performance evaluations and, in consultation with the Nominating Committee, propose, where appropriate, new members to be appointed to the Board or seek the resignation of existing members.

The Board has taken the view that the recommendations under the Code to include financial indicators as part of the performance criteria for Board evaluation is not appropriate as it is more of a measurement of Management's performance and therefore, less applicable to the Board as a whole.

The Nominating Committee met in November 2022 and discussed amongst others, the performance of individual directors, the Board committees and the Board as a whole, independence of the Independent Directors and re-election of Directors who will be retiring at the forthcoming annual general meeting. All committee members present at the meeting participated in the discussion and voting other than that in the respect of his/her own re-nomination as Director. No significant issues were identified from the evaluation of the Board's performance for the financial year under review.

#### **REMUNERATION MATTERS**

#### **Principle 6: Procedures for Developing Remuneration Policies**

The Board has a formal and transparent procedure for developing policies on Director and executive remuneration, and for fixing the remuneration packages of individual Directors and Key Executive Officers. No Director is involved in deciding his/her own remuneration.

#### Principle 7: Level and Mix of Remuneration

The level and structure of remuneration of the Board and Key Executive Officers are appropriate and proportionate to the sustained performance and value creation of the Company, taking into account the strategic objectives of the Company.

#### **Remuneration Committee**

The Remuneration Committee, regulated by a set of written terms of reference, consists of four members who are all Independent Directors.

The Remuneration Committee consists of:

Ms. Chang Pui Yook	Chairman
Mr. Teo Ser Luck	Member
Mr. Joel Leong Kum Hoe	Member
Mr. He Jun*	Member

\*Mr. He Jun has been on a leave of absence since 25 February 2022.

The principal functions of the Remuneration Committee are to:

- recommend to the Board a framework of remuneration for the Directors and Key Executive Officers of the Group, including Chief Executive Officer (or equivalent) and Chief Financial Officer (or equivalent);
- determine specific remuneration packages for each Executive Director including the Chief Executive Officer (or equivalent);
- review all aspects of remuneration of employees (including, among others, employees who are related to the Directors and relatives of the Directors and controlling Shareholders), including Directors' fees, salaries, allowances, bonuses and other benefits-in-kind;
- review and ensure that the remuneration of Independent Directors is appropriate to the level of contribution by them taking into account factors such as effort and time spent and responsibilities of the Directors;
- recommend the employees' share option schemes or any long-term incentive scheme, which may be set up from time to time and to do all acts necessary in connection therewith; and
- review the Company's obligation arising in the event of termination of the Executive Directors and Key Executive Officers' contract of services to ensure that such contract of services contain fair and reasonable clauses which are not overly generous.

The Remuneration Committee's recommendations are made in consultation with the Chief Executive Officer and Executive Directors and submitted for endorsement by the Board.

In determining the remuneration system for the Key Executive Officers, the Remuneration Committee may seek advice from human resource consultants and senior practitioners in order to obtain comparable information on the market and the industry. The annual review covers all aspects of remuneration including salaries, fees, allowances, bonuses, options and benefits-in-kind, taking into consideration the long-term interests of the Group. The Remuneration Committee will also take into account the performance of the Group as well as that of the Directors and Key Executive Officers, aligning their interests with those of Shareholders and linking rewards to corporate and individual performance as well as industry benchmarks. It ensures that remuneration package is appropriate to attract, retain and motivate the Directors and Key Executive Officers to provide good stewardship of the Group and successfully manage the Group for the long term. The review of remuneration packages takes into consideration the financial and commercial health, business needs and long-term interests of the Group. Performance-related remuneration is aligned with the interests of Shareholders and other Stakeholders and promotes the long-term success of the Group.

The Remuneration Committee met in November 2022 to discuss the various remuneration matters and its decision was recorded by way of minutes. The committee members present at the meeting were involved in the deliberations. No Director was involved in the fixing of his/her own remuneration, except in providing information and documents if requested by the Remuneration Committee to assist in its deliberation.

No external remuneration consultants were appointed for the financial year under review.

#### **Principle 8: Disclosure on Remuneration**

The Company is transparent on its remuneration policies, level and mix of remuneration, the procedures for setting remuneration, and the relationships between remuneration, performance and value creation.

The remuneration package of Executive Directors and Key Executive Officers consists of:

#### **Basic Salary**

Basic salary is determined based on the market value of the job. Merit increments, if any, are added to the basic salary. In line with the Singapore government's recommendations, the Company has designated a portion of the basic salary as a monthly variable component for certain employees, including Key Executive Officers.

#### Bonus

The Executive Directors and Key Executive Officers are entitled to a bonus which is determined by the Group's performance. The Board, as recommended by the Remuneration Committee, approves bonuses paid to the Executive Directors and Key Executive Officers.

#### **Benefits-in-kind**

Customary benefits-in-kind consistent with market practices are given to Executive Directors and Key Executive Officers.

#### **Employee Share Option Scheme**

The Company does not have an Employee Share Option Scheme in place.

#### **Remuneration of Directors and Chief Executive Officer**

Given the competitive environment that the Company is operating in and the confidentiality of remuneration matters, the Company will not disclose the exact amount and breakdown of the remuneration of each individual Director and Chief Executive Officer, as the Company believes that such disclosure may be prejudicial to its business interests. The Company believes that disclosing individual Director and Chief Executive Officer remuneration in bands of S\$250,000 and breakdown in percentage terms strike a good balance between detailed disclosure and confidentiality. The Company believes that disclosing the respective remuneration of the Directors in bands no wider than S\$250,000 and the aggregate remuneration of Directors provides a sufficient overview.

The remuneration (in percentage terms and in bands no wider than S\$250,000) of the Directors and Chief Executive Officer is set out below:

	Salary	Bonus	Fees <sup>1</sup>	Benefits-in- kind²	Total
Name of Director	%	%	%	%	%
S\$2,000,000 to S\$2,249,999

Mr. Xu Jiguo	9	87	_	4	100
S\$1,750,000 to S\$1,999,999					
Mr. Zhang Xingwang	10	87	_	3	100
S\$250,000 to S\$499,999					
Mr. Darrell Lim Chee Lek <sup>3</sup>	47	36	5	12	100
Up to S\$249,999					
Mr. Teo Ser Luck	_	-	100	_	100
Ms. Chang Pui Yook	-	-	100	-	100
Mr. He Jun <sup>4</sup>	_	_	100	-	100
Mr. Joel Leong Kum Hoe	_	_	100	_	100
Mr. Stephen Ho Kiam Kong	_	_	100	-	100
Ms. Kwek Pei Xuan	_	_	100	_	100
Mr. Toh Kian Sing	_	-	100	_	100

The annual aggregate remuneration of Directors for financial year ended 30 September 2022 is S\$6,775,442.

Notes:

- <sup>1</sup> The fees have been approved by Shareholders at the last Annual General Meeting held on 27 January 2022.
- <sup>2</sup> Includes transport allowances, contributions to Central Provident Fund and other benefits-in-kind.
- <sup>3</sup> Mr. Darrell Lim Chee Lek resigned as an executive director of the Company on 30 April 2022 and has been appointed as a non-executive and non-independent director of the Company on 1 May 2022.
- <sup>4</sup> Mr. He Jun has been on a leave of absence since 25 February 2022.

The Non-Executive and Independent Directors are entitled to Directors' fees. The level of fees is reviewed for reasonableness taking into account the size of the Company, level of contribution and the additional duties and responsibilities of the Directors.

#### **Remuneration of Top 3 Key Executive Officers**

Regarding the Code's recommendation to fully disclose the remuneration of at least the top 5 Key Executive Officers who are not Directors or Chief Executive Officer, the Board does not believe it to be in the Company's best interests to disclose the individual remuneration of these executives.

The Company had only three Key Executive Officers for the financial year ended 30 September 2022. The profiles of the Key Executive Officers can be found on page 14 of the Annual Report. Having considered the highly competitive human resource environment for personnel with the requisite knowledge, expertise and experience in the Company's business activities, the Company is of the view that disclosure of specific remuneration information such as remuneration of each Key Executive Officer in bands no wider than S\$250,000, may give rise to recruitment and talent retention issue. There will be negative impact to the Company if members of the experienced and qualified senior management team are poached. This may affect the ability to both nurture a sustainable talent pool and ensure the smooth continuity in leadership critical for the achievement of the strategic objectives of the Company. The total aggregate remuneration of the Key Executive Officers who are not Directors or Chief Executive Officer for the financial year ended 30 September 2022 was S\$5,084,576. The Company believes that shareholders' interest will not be prejudiced since the total aggregate remuneration has been disclosed.

#### **Remuneration of Employees Related to Directors**

There are no employees related to a Director or the Chief Executive Officer or a substantial Shareholder of the Company whose remuneration exceeds S\$100,000 in the Company's employment for the financial year ended 30 September 2022.

For the financial year under review, there were no terminations, retirements or post-employment benefits granted to the Directors, the Chief Executive Officer and Key Executive Officers.

Where appropriate, the Remuneration Committee reviews the service contracts of the Company's Chief Executive Officer and the Executive Directors.

There is no contractual provision under the present remuneration structure that allows the Company to reclaim variable incentive components of remuneration from the Chief Executive Officer, Executive Directors and Key Executive Officers. However, in alignment with the current regulatory standards, the variable incentives of the Chief Executive Officer, Executive Directors and Key Executive Officers may be clawed back in the event of exceptional circumstances of misstatement of financial results or of misconduct resulting in financial or other losses to the Company.

The Company's compensation framework comprises fixed salary and short-term incentives. The Company subscribes to linking the executive remuneration to corporate and individual performance, based on an annual appraisal of employees and using indicators such as core values, competencies, key result areas, performance rating and potential of the employees.

#### **Principle 9: Risk Management and Internal Controls**

### The Board is responsible for the governance of risk and ensures that management maintains a sound system of risk management and internal controls, to safeguard the interests of the Company and its Shareholders.

#### **Internal Controls**

The Board is responsible for the overall risk governance, risk management and internal control framework of the Group and is fully aware of the need to put in place a system of internal controls within the Group to safeguard Shareholders' interest. Management also reviews the system of internal controls regularly in order to ensure that sufficient checks and balances exist within the system to safeguard the Group's assets. The Audit and Risk Management Committee ensures that these controls are effective by engaging an external consultant as the internal auditor. The internal auditor works within the scope of an audit plan, which has been approved by the Audit and Risk Management Committee, to review and test the adequacy, effectiveness and independence of the internal controls of the Group. The external independent auditor will, in the course of the external audit, conduct a review of certain internal controls relevant to the preparation of financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. The roles of risk management have been delegated to the Audit and Risk Management Committee.

The Board approves the key risk management policies and ensures a sound system of risk management and internal controls and monitors performance against them. In addition to determining the approach to risk governance, the Board sets and instils the right risk-focused culture throughout the Group for effective risk governance.

The Board has reviewed the adequacy and effectiveness of the Group's internal controls framework in relation to financial, operational, compliance and information technology controls as well as risk management systems of the Group. The Board, with the concurrence of the Audit and Risk Management Committee, is of the view that the Group's internal controls addressing financial, operational, compliance and information technology risk as well as the Group's risk management systems are effective and adequate as at 30 September 2022. The Board and Audit and Risk Management Committee did not identify any major concern on the Group's internal controls or risk management systems for the financial year under review.

The system of internal controls provides reasonable assurance against material financial misstatements or loss and includes the safeguarding of assets, the maintenance of proper accounting records, the reliability of financial information, compliance with appropriate legislation, regulation and best practices and the identification and management of business risks.

The Board acknowledges that no system of internal controls can provide absolute assurance against the occurrence of material errors, poor judgement in decision-making, human error, fraud or other irregularities.

The Board has received assurance from the Chief Executive Officer and Chief Financial Officer that the financial records as at 30 September 2022 have been properly maintained and the financial statements for the financial year under review give a true and fair view of the Group's operations and finances. The Board has also received assurance from the Chief Executive Officer and Key Executive Officers that the Company's risk management and internal control systems are adequate and effective.

#### Principle 10: Audit Committee

#### The Board has an Audit Committee which discharges its duties objectively.

#### Audit and Risk Management Committee

The Board has renamed the Audit Committee to Audit and Risk Management Committee with effect from 12 May 2022 to better reflect the roles and responsibilities of the committee in assisting the Board to oversee the risk management of the Group.

The Audit and Risk Management Committee consists of:

Mr. Joel Leong Kum Hoe	Chairman	
Mr. He Jun*	Member	
Ms. Chang Pui Yook	Member	
Mr. Toh Kian Sing	Member	

\*Mr. He Jun has been on a leave of absence since 25 February 2022.

The role of the Audit and Risk Management Committee is to, inter alia, assist the Board in discharging its responsibilities to safeguard the Group's assets, maintain adequate accounting records, develop and maintain effective systems of internal controls and oversee risk management of the Group. The Board is of the opinion that the members of the Audit and Risk Management Committee have sufficient accounting and financial management expertise and experience in discharging their duties and responsibilities. There is a good mix of expertise among the members who can handle financial, legal as well as commercial issues relating to the Group's business.

There were five Audit and Risk Management Committee meetings held during the year. In the meetings dealing with the announcement of the Group's results, all other Directors and the Chief Financial Officer were invited to join the meetings.

The Audit and Risk Management Committee has written terms of reference and its key functions are to:

- review the independence, objectivity, adequacy, effectiveness, scope of results and objectivity of the internal and external auditors and approve the audit plans of the Company's internal and external auditors as well as consider and make recommendations to the Board on (i) the proposals to the shareholders on the appointment or re-appointment and removal of external auditors and (ii) the remuneration and terms of engagement of the internal and external auditors;
- review the evaluation of the system of internal accounting controls in the course of the internal and external audit, their letter to Management, Management's response, results of the Company's audit conducted by internal and external auditors as well as the reports and statements to be included in the annual report concerning the adequacy and effectiveness of the risk management and internal controls systems, including financial, operational, compliance and information technology controls;

On behalf of the Board of Directors,

Seah Kiin Peng Director

Xu Jiguo Director

Singapore 10 January 2023

For the financial year ended 30 September 2022 Independent auditor's report to the members of BRC Asia Limited

### Report on the audit of the financial statements

### Opinion

We have audited the financial statements of BRC Asia Limited (the "Company") and its subsidiaries (collectively, the "Group"), which comprise the balance sheets of the Group and the Company as at 30 September 2022, the statements of changes in equity of the Group and the Company and the consolidated statement of comprehensive income and consolidated cash flow statement of the Group for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group, the balance sheet and the statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act 1967 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 30 September 2022 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and changes in equity of the Company for the year ended on that date.

### **Basis for opinion**

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled our responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

### Allowance for expected credit losses on trade receivables

Trade receivable balances are significant to the Group as they represent 23% of the Group's current assets and trade receivables carried at amortised cost are subject to expected credit loss assessment. The expected credit loss assessment requires significant management estimation over the correlation between historical observed default rates and forward-looking factors, including consideration of Covid-19 impact and general economic conditions. Consequently, we determined that this is a key audit matter.

Our audit procedures included, amongst others, evaluating the Group's processes and controls for monitoring and identifying trade receivables with collection risks, including the enhanced controls put in place by management in response to the Covid-19 pandemic. In particular, we tested the data and inputs used by management in computing the historical loss rate and evaluated the basis used for the forward-looking adjustment in determining the expected credit loss rate. We discussed with management on the collectability of trade receivables and inquired management if there are any known customers potentially impacted by the Covid-19 pandemic and general economic conditions which may then affect their ability to repay their debts. On a sample basis, we have also checked for evidence of receipts subsequent to the year end. We also checked the mathematical accuracy of the expected credit loss allowance provision matrix and assessed the adequacy of the Group's disclosures on trade receivables and the related risks such as credit risk and liquidity risk in Notes 33(a) and 33(b) to the financial statements.

For the financial year ended 30 September 2022 Independent auditor's report to the members of BRC Asia Limited

### Key audit matters (cont'd)

### Provision for onerous contracts

As at 30 September 2022, the Group recognised provision for onerous contracts amounting to \$33.3 million. The process of estimating provision for onerous contracts requires management's judgement on the estimated unavoidable costs of meeting its contractual obligations based on the inventory on hand, plus estimated costs of inventory purchases and conversion costs required. Consequently, we determined that this is a key audit matter.

Our audit procedures included, amongst others, evaluating the Group's process for identifying onerous contracts. We tested the completeness of this identification against open sales orders and current year sales as well as through analysis of the underlying contracts in place. In particular, we evaluated management's assessment for the unavoidable costs in meeting the obligations under these contracts. We also checked the mathematical accuracy of management's computation of the provision for onerous contracts and assessed the adequacy of the Group's disclosures on provision for onerous contracts in Note 24 of the financial statements.

#### Impairment assessment of investment in subsidiaries and interest in associate

As at 30 September 2022, the Company's investment in subsidiaries and interest in associate amounted to \$125.7 million and \$10.7 million, respectively. The Group's interest in associates amounted to \$10.7 million as at 30 September 2022. Management noted favourable changes in the indicators that led to the previously recognised impairment loss relating to its investment in a subsidiary and interest in associate and performed reassessment of their recoverable amounts using value-in-use ("VIU") method. As a result, the Group recognised reversal of impairment loss of \$2.4 million on interest in associate and the Company recognised reversal of impairment loss of \$4.7 million on investment in a subsidiary and an impairment loss of \$76,000 on interest in associate for the year ended 30 September 2022. These impairment assessments require significant management estimation and involve judgement. As such, we determined this to be a key audit matter.

In respect of impairment assessment of investment in subsidiaries, our audit procedures included, amongst others, assessing the reasonableness of management's key assumptions such as forecasted revenue, profit margin, terminal growth rate and discount rate applied in the VIU calculation based on our knowledge of the subsidiaries' operations and past performance, considering the impact associated with Covid-19 pandemic. We involved our valuation team to review the reasonableness of the terminal growth rate and discount rate adopted by management. In addition, we performed sensitivity analysis on the recoverable amount to possible reasonable changes in the respective key assumptions described above. We have also assessed the adequacy of the disclosures in Note 13 to the financial statements.

In respect of impairment assessment of interest in associate, our audit procedures included, amongst others, assessing the reasonableness of management's assumptions applied in the VIU calculation. We assessed the reasonableness of the revenue growth rates and budgeted profit margin by comparing them to available external industry data, taking into consideration market conditions prevailing at the reporting date. We also considered the viability of future plans, local economic conditions and industry outlook, taking into consideration the impact associated with the recovery of Covid-19 pandemic. We reviewed the reasonableness of the discount rate and terminal growth rate used by comparing the assumptions applied in the discount rate and the long-term growth rate to external economic data. We have also assessed the adequacy of the disclosures in Note 15 to the financial statements.

### Responsibilities of management and directors for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I), and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

For the financial year ended 30 September 2022 Independent auditor's report to the members of BRC Asia Limited

### Auditor's responsibilities for the audit of the financial statements (cont'd)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on other legal and regulatory requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Ho Shyan Yan.

### 2. Summary of significant accounting policies (cont'd)

#### 2.4 **Basis of consolidation and business combinations**

### (a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the end of the reporting period. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company's. Consistent accounting policies are applied to like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intragroup transactions are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Losses within a subsidiary are attributed to the non-controlling interest even if that results in a deficit balance.

### (b) Business combinations and goodwill

Business combinations are accounted for by applying the acquisition method. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognised in profit or loss.

Non-controlling interest in the acquiree, that are present ownership interests and entitle their holders to a proportionate share of net assets of the acquiree are recognised on the acquisition date at either fair value, or the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill. In instances where the latter amount exceeds the former, the excess is recognised as gain on bargain purchase in profit or loss on the acquisition date.

Goodwill is initially measured at cost. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to the Group's cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

The cash-generating units to which goodwill have been allocated is tested for impairment annually and whenever there is an indication that the cash-generating unit may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates.

For the financial year ended 30 September 2022

### 2. Summary of significant accounting policies (cont'd)

#### 2.5 Foreign currency

The financial statements are presented in Singapore Dollars, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

### (a) Transactions and balances

Transactions in foreign currencies are measured in the respective functional currencies of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the closing rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the balance sheet date are recognised in the profit or loss except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operations, which are recognised initially in other comprehensive income and accumulated under foreign currency translation reserve in equity. The foreign currency translation reserve is reclassified from equity to profit or loss on disposal of the foreign operation.

### (b) **Consolidated financial statements**

For consolidation purpose, the assets and liabilities of foreign operations are translated into Singapore Dollars at the rate of exchange ruling at the end of reporting period and the profit or loss are translated at the weighted average exchange rates for the financial year. The exchange differences arising on the translation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

### 2.6 **Property, plant and equipment**

All items of property, plant and equipment are initially recorded at cost. Subsequent to recognition, all property, plant and equipment except for freehold land and a leasehold building are measured at cost less accumulated depreciation and accumulated impairment losses. The leasehold building was initially stated at cost and subsequently measured at fair value less accumulated depreciation and impairment losses recognised after the date of the revaluation.

The valuation of the leasehold building was carried out in 1993 based on the appraisals received from an independent firm of professional valuers and the revaluation surplus was taken to asset revaluation reserve.

Prior to the introduction of SFRS(I), the Group does not have a policy of periodic revaluation of property leasehold buildings (as allowed under FRS 16 for one-off revaluation performed on property, plant and equipment between 1 January 1984 and 31 December 1996). On transition from FRS 16 to SFRS(I) 1-16, upon adoption of SFRS(I) the property leasehold building was deemed to be held at cost based on the one-off revaluation performed on property, plant and equipment in 1993.

Any revaluation surplus is recognised in other comprehensive income and accumulated in equity under the asset revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is recognised in profit or loss. A revaluation deficit is recognised in profit or loss, except to the extent that it offsets an existing surplus on the same asset carried in the asset revaluation reserve.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. The revaluation surplus included in the asset revaluation reserve in respect of an asset is transferred directly to retained earnings on retirement or disposal of the asset.

For the financial year ended 30 September 2022

### 2. Summary of significant accounting policies (cont'd)

### 2.6 Property, plant and equipment (cont'd)

Freehold land has an unlimited useful life and therefore is not depreciated.

Depreciation is computed on a straight-line basis over the estimated useful life of the asset as follows:

Leasehold land	_	2 to 27 years
Leasehold buildings	_	11 to 36 years
Plant and machinery	_	4 to 15 years
Motor vehicles	-	7 to 10 years
Furniture and equipment	-	3 to 5 years

Assets under construction are not depreciated as these assets are not yet available for use.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on de-recognition of the asset is included in profit or loss in the year the asset is de-recognised.

#### 2.7 Investment properties

Investment properties are properties that are either owned by the Group or right-of-use assets that are held to earn rentals or for capital appreciation, or both, rather than for use in the production or supply of goods or services, or for administrative purposes, or in the ordinary course of business.

Investment properties are initially measured at cost, including transaction costs and subsequently carried at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is computed using the straight-line method to allocate their depreciable amount over the estimated useful life as follows:

Leasehold property	-	Over lease term of 45 years
Freehold property	-	30 years

The carrying value of investment properties are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

Investment properties are subject to renovations or improvements at regular intervals. The cost of major renovations and improvements is capitalised if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of investment properties are recognised in profit or loss in the year of retirement or disposal.

### 2. Summary of significant accounting policies (cont'd)

#### 2.8 Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when an annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognised in profit or loss, except for assets that are previously revalued where the revaluation was taken to other comprehensive income. In this case, the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase.

#### 2.9 **Subsidiaries**

A subsidiary is an investee that is controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

In the Company's separate balance sheet, investment in subsidiaries are accounted for at cost less impairment losses.

#### 2.10 Joint arrangements

A joint arrangement is a contractual arrangement whereby two or more parties have joint control. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

A joint arrangement is classified either as joint operation or joint venture, based on the rights and obligations of the parties to the arrangement.

To the extent the joint arrangement provides the Group with rights to the assets and obligations for the liabilities relating to the arrangement, the arrangement is a joint operation. To the extent the joint arrangement provides the Group with rights to the net assets of the arrangement, the arrangement is a joint venture.

The Group recognises its interest in a joint venture as an investment and accounts for the investment using the equity method. The accounting policy for interest in joint venture is set out in Note 2.11.

#### 2.11 Joint venture and associates

An associate is an entity over which the Group has the power to participate in the financial and operating policy decisions of the investee but does not have control or joint control of those policies.

The Group accounts for its interest in associates and joint venture using the equity method from the date on which it becomes an associate or joint venture.

For the financial year ended 30 September 2022

### 2. Summary of significant accounting policies (cont'd)

### 2.11 Joint venture and associates (cont'd)

On acquisition of the investment, any excess of the cost of the investment over the Group's share of the net fair value of the investee's identifiable assets and liabilities is accounted as goodwill and is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the investee's identifiable assets and liabilities over the cost of the investment is included as income in the determination of the entity's share of the associate or joint venture's profit or loss in the period in which the investment is acquired.

Under the equity method, the interest in associate or joint venture is carried in the balance sheet at cost plus post-acquisition changes in the Group's share of net assets of the associate or joint venture. The profit or loss reflects the share of results of the operations of the associate or joint venture. Distributions received from associate or joint venture reduce the carrying amount of the investment. Where there has been a change recognised in other comprehensive income by the associate or joint venture, the Group recognises its share of such changes in other comprehensive income. Unrealised gains and losses resulting from transactions between the Group and associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

When the Group's share of losses in an associate or joint venture equals or exceeds its interest in the associate or joint venture, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate or joint venture.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on the Group's interest in associates or joint venture. The Group determines at each balance sheet date whether there is any objective evidence that the interest in the associates or joint venture is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value and recognises the amount within "share of results of associates or joint venture" in profit or loss.

The financial statements of the associates and joint venture are prepared as at the same reporting date as the Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

In the Company's balance sheet, interests in joint venture and associates are stated at cost less accumulated impairment losses.

### 2.12 Financial instruments

#### (a) Financial assets

#### Initial recognition and measurement

Financial assets are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instruments.

At initial recognition, the Group measures a financial asset at its fair value, plus, in the case of financial assets not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

For the financial year ended 30 September 2022

### 2. Summary of significant accounting policies (cont'd)

### 2.12 Financial instruments (cont'd)

(a) Financial assets (cont'd)

#### Subsequent measurement

#### Investments in debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the contractual cash flow characteristics of the asset. The measurement categories for classification of debt instruments are:

(i) Amortised cost

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, and through the amortisation process.

(ii) Fair value through profit or loss

Assets that do not meet the criteria for amortised cost or fair value through other comprehensive income ("FVOCI") are measured at fair value through profit or loss. A gain or loss on a debt instruments that is subsequently measured at fair value through profit or loss ("FVPL") and is not part of a hedging relationship is recognised in profit or loss in the period in which it arises.

#### Investments in equity instruments

On initial recognition of an investment in equity instrument that is not held for trading, the Group has irrevocably elected to present subsequent changes in fair value in other comprehensive income ("OCI"). Dividends from such investments are to be recognised in profit or loss when the Group's right to receive payments is established.

#### Derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. Changes in fair value of derivatives are recognised in profit or loss.

#### **De-recognition**

A financial asset is de-recognised where the contractual right to receive cash flows from the asset has expired. On de-recognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received, and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

### (b) *Financial liabilities*

#### Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs.

For the financial year ended 30 September 2022

### 2. Summary of significant accounting policies (cont'd)

### 2.12 Financial instruments (cont'd)

#### (b) Financial liabilities (cont'd)

### Subsequent measurement

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are de-recognised, and through the amortisation process.

### **De-recognition**

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or has expired. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss.

### 2.13 Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss and financial guarantees. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months ("a 12-month ECL"). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default ("a lifetime ECL").

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

#### 2.14 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand which are subject to an insignificant risk of changes in value.

For the financial year ended 30 September 2022

### 2. Summary of significant accounting policies (cont'd)

### 2.15 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and condition are accounted for as follows:

- Raw materials: purchase costs on a weighted average basis.
- Finished goods and work-in-progress: costs of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity.

Where necessary, allowance is provided for damaged, obsolete and slow-moving items to adjust the carrying value of inventories to the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

### 2.16 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

### 2.17 Financial guarantee

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Financial guarantees are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, financial guarantees are measured at the higher of the amount of expected credit loss determined in accordance with the policy set out in Note 2.13 and the amount initially recognised less, when appropriate, the cumulative amount of income recognised over the period of the guarantee.

#### 2.18 Borrowing costs

Borrowing costs are capitalised as part of the cost of a qualifying asset if they are directly attributable to the acquisition, construction or production of that asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress, and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other cost that an entity incurs in connection with the borrowing of funds.

### 2.19 Government grants

Government grants are recognised when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Government grant shall be recognised in profit or loss on a systematic basis over the periods in which the entity recognises as expenses the related costs for which the grants are intended to compensate. Grants related to income are presented as a credit in profit or loss, under "Other income".

### 2. Summary of significant accounting policies (cont'd)

### 2.20 Employee benefits

### (a) **Defined contribution plans**

The Group participates in the national pension schemes as defined by the laws of the countries in which it has operations. In particular, the Singapore companies in the Group makes contributions to the Central Provident Fund in Singapore, a defined contribution pension scheme. Similar defined contributions are made in accordance to other schemes in the jurisdiction that the Group operates in. Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed.

### (b) Retirement benefits

Retirement benefits are granted to employees who commenced employment with the Company prior to 1 January 1983. The retirement benefits are calculated based on one week's pay for each full year of service at the employee's last-drawn salary at date of retirement.

Defined benefit plans are post-employment benefit plans other than defined contribution plans. Defined benefit plans typically define the amount of benefit that an employee will receive on or after retirement, usually dependent on one or more factors such as age, years of service and compensation.

The liability recognised in the balance sheet in respect of a defined benefit plan is the present value of the defined benefit obligation at the balance sheet date. The defined benefit obligation is calculated annually. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using market yields of high quality government bonds that are denominated in the currency in which the benefits will be paid; and it has tenures approximating that of the related benefit obligations.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognised as expense in profit or loss. Past service costs are recognised when plan amendment or curtailment occurs.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on high quality corporate bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognised as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses are recognised immediately in other comprehensive income in the period in which they arise. Remeasurements are recognised in retained earnings within equity and are not reclassified to profit or loss in subsequent periods.

### (c) Employee leave entitlements

Employee entitlements to annual leave are recognised as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled wholly before twelve months after the end of the reporting period is recognised for services rendered by employees up to the end of the reporting period. The net total of service costs, net interest on the liability and remeasurement of the liability are recognised in profit or loss.

### 2. Summary of significant accounting policies (cont'd)

### 2.21 *Leases*

#### As lessee

At the inception of the contract, the Group assesses if the contract contains a lease. A contract contains a lease if the contract convey the right to control the use of an identified for a period of time in exchange for consideration. Reassessment is only required when the terms and conditions of the contract are changed.

### Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and an estimate of costs of restoring the underlying asset required by terms and conditions of the lease. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The rightof-use assets are also subject to impairment. Refer to the accounting policies in Note 2.8 Impairment of nonfinancial assets. The Group's right-of-use assets are presented within property, plant and equipment (Note 11).

#### Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that are not based on an index or a rate are not included as part of the measurement and initial recognition of the lease liability. The Group recognises those payments as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Group's lease liabilities are included in loans and borrowings (Note 22).

### Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of land and machinery (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of factory and office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

For the financial year ended 30 September 2022

### 2. Summary of significant accounting policies (cont'd)

### 2.21 Leases (cont'd)

#### As lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

#### 2.22 **Revenue**

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

### (a) Sale of goods

The Group supplies steel products to its customers. Revenue is recognised when the goods are delivered to the customer and all criteria for acceptance have been satisfied.

Some contracts with customers allow for price adjustments based on changes in steel reinforcement prices for the stipulated delivery month. These are referred to as provisional pricing arrangements. The period between provisional invoicing and the finalisation is up to two months.

The amount of revenue recognised is based on the estimated transaction price, which comprises the contractual price, net of estimated prompt payment discount and sales discount.

At the end of the reporting period, the Group updates its assessment of the estimated transaction price. The corresponding amounts are adjusted against revenue in the period in which the transaction price changes.

#### (b) Rental income

Rental income arising from operating leases on investment properties is accounted for on a straightline basis over the lease terms. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

### (c) **Dividend income**

Dividend income is recognised when the Group's right to receive payment is established.

#### (d) Interest income

Interest income is recognised using the effective interest method.

For the financial year ended 30 September 2022

### 2. Summary of significant accounting policies (cont'd)

### 2.23 **Taxes**

### (a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the end of the reporting period, in the countries where the Group operates and generates taxable income.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

### (b) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries and interests in joint ventures and associates, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investments in subsidiaries and interests in joint venture and associate, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of each reporting period.

For the financial year ended 30 September 2022

### 2. Summary of significant accounting policies (cont'd)

### 2.23 Taxes (cont'd)

### (b) **Deferred tax (cont'd)**

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity; and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

#### (c) Sales tax

Revenues, expenses and assets are recognised net of the amount of sales tax except:

- Where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

#### 2.24 Share capital and share issuance expenses

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

### 2.25 Treasury shares

The Group's own equity instruments, which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount of treasury shares and the consideration received, if reissued, is recognised directly in equity. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively.

### 2.26 *Contingencies*

A contingent liability is:

- (a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or
- (b) a present obligation that arises from past events but not recognised because:
  - (i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
  - (ii) the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised on the balance sheet of the Group, except for contingent liabilities assumed in a business combination that are present obligations and which the fair values can be reliably determined.

For the financial year ended 30 September 2022

### 3. Significant accounting judgements and estimates

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of asset or liability affected in the future periods.

### 3.1 Judgements made in applying accounting policies

Management is of the opinion that there is no significant judgement made in applying the accounting policies that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

### 3.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period are discussed below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

### (a) Impairment of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables carried at amortised cost. The provision rates are based on days past due for grouping of various customers that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust historical credit loss experience with forward-looking information. At every reporting date, historical default rates are updated and changes in forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables carried at amortised cost is disclosed in Note 33(a).

### (b) **Provision for onerous contracts**

Provision for onerous contracts is recorded in respect of outstanding order books vis-à-vis inventory on hand and committed purchases whereby the costs to meet the obligations are expected to exceed the economic benefits to be received. Management assessed and estimated the unavoidable costs required to fulfil its contractual obligation based on the value of inventory on hand, plus estimated costs of inventory purchases and conversion costs required.

The carrying amount of the Group's provision for onerous contracts as at 30 September 2022 was \$33,262,000 (2021: \$46,104,000) (Note 24).

For the financial year ended 30 September 2022

### 3. Significant accounting judgements and estimates (cont'd)

### 3.2 Key sources of estimation uncertainty (cont'd)

### (c) Impairment of investment in subsidiaries and interest in associate

The Group and Company assesses at each reporting date whether there is an indicator that an asset may be impaired. If any indicator exists, the Group and Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use ("VIU"), and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Management prepared discounted cash flow analysis to determine the recoverable amounts of the subsidiaries and associate using the VIU model. These were prepared based on assumptions such as forecasted revenue, profit margin, terminal growth rate and discount rate. These involve management judgement and estimation. As a result of such impairment assessments, a reversal of impairment loss on investment in subsidiary of \$4,700,000 at Company level and a reversal of impairment of interest in associate of \$2,400,000 at Group level were recorded during the year. Refer to details in Notes 13 and 15.

#### (b) Estimating variable consideration

In estimating the variable consideration for sale of goods with fluctuation clause based on published steel reinforcement index from the Building and Construction Authority, the Group applied the 'most likely amount method' to predict the steel reinforcement index based on spot sales prices and steel price trends.

#### (c) Contract balances

Information about receivables and contract liabilities from contracts with customers is disclosed as follows:

		Group			
		30.9.2022 30.9.2021 1.10.202

Receivables from contracts with customers	18	187,601	152,757	81,394	
Contract liabilities		9,743	2,814	21,410	

The Group recognised impairment losses on receivables from contracts with customers amounting to \$448,000 (2021: \$2,700,000).

Contract liabilities primarily relate to the Group's obligation to transfer goods to customers for which the Group has received advances from customers. These are recognised as revenue as the Group performs under the contract. The decrease in contract liabilities is due to fulfilment of contracts and hence recognition of revenue during the previous financial year.

Significant changes in the contract liabilities balances during the period are as follows:

Government grant income relates mainly to Covid-19 relief measures and support, Senior Employment Credit ("SEC") and Wage Credit Scheme ("WCS").

Covid-19 relief measures and support comprise mainly of Jobs Support Scheme ("JSS") grants, Foreign Worker Levy ("FWL") and Property Tax rebates introduced in the 2020 Budget.

The Government introduced JSS in early 2020, during a period of economic uncertainty due to Covid-19, to help employers retain local employees. Under the JSS, the Government co-funds 10% to 50% of the first \$4,600 of gross monthly wages paid to each local employee from September 2020 to March 2021. JSS was extended for another 6 months till September 2021 in the 2021 Budget and further extended till December 2021, targeting only certain affected sectors. Grant received in advance (Note 21) is recognised as government grant income in the profit or loss on a systematic basis over the months in which the related salary costs are recognised as expenses.

The FWL rebate was introduced in 2020 as a form of transitionary support to help businesses retain their enterprise capabilities amidst the challenges caused by the Covid-19 pandemic. FWL rebates of \$90 monthly for October 2020 to December 2021 were granted for each work permit holder. The Group recognised the related grant receivables (Note 18) when there is reasonable assurance that the grant conditions are satisfied with the corresponding recognition of government grant income in the profit or loss over the corresponding months.

SEC was announced in 2020 as part of the Government's Senior Worker Support Package. The SEC combines two previous Government schemes, the Special Employment Credit and the Additional Special Employment Credit. The SEC provides wage offsets to employers that hire Singaporean workers aged 55 and above, and earning up to S\$4,000 per month. This wage offset will be provided for a 2-year period from 1 January 2021 to 31 December 2022.

WCS was introduced in 2013 to help businesses with rising wage costs, to support businesses embarking on transformation efforts and to encourage sharing of productivity gains with workers. It was announced in the 2020 Budget that the Government co-funding ratio for wage increases will be raised to 15% from 10% and the qualifying wage ceiling will be raised to \$5,000 per month from \$4,000. In the 2021 Budget, the WCS was further extended by one year with the government co-funding ratio remaining at 15% for wage increases given in 2021, and the qualifying gross wage ceiling was maintained at \$5,000.

### 11. Property, plant and equipment (cont'd)

#### Assets under construction

The Group's and Company's assets under construction mainly relate to expenditure for property and plant and machinery in the course of construction.

#### Revaluation of leasehold building

Included in leasehold buildings is a building which was revalued based on valuation by an independent firm of professional valuers in 1993. The valuation was based on the open market value of the leasehold building. The revaluation surplus was taken to asset revaluation reserve.

Prior to the introduction of SFRS(I), the Group does not have a policy of periodic revaluation of property leasehold buildings (as allowed under FRS 16 for one-off revaluation performed on property, plant and equipment between 1 January 1984 and 31 December 1996). On transition from FRS 16 to SFRS(I) 1-16, upon adoption of SFRS(I) the property leasehold building was deemed to be held at cost based on the one-off revaluation performed on property, plant and equipment in 1993.

If the leasehold building stated at valuation had been included in the financial statements at cost less accumulated depreciation, the net book value would have been \$Nil (2021: \$Nil).

#### Assets pledged as security

The Group's leasehold buildings with a carrying amount of \$28,056,000 (2021: \$41,739,000) are mortgaged to secure the Group's bank loans (Note 22).

#### Lease additions

In the previous financial year, the Group capitalised new leases amounting to \$5,459,000 (Note 23).

The Group made adjustments of \$256,000 (2021: \$Nil) to the right-of-use asset as a result of lease reassessment. The cash outflow on acquisition of property, plant and equipment amounted to \$2,912,000 (2021: \$1,935,000).

#### Right-of-use assets

Right-of-use assets acquired under leasing arrangements are presented together with the owned assets of the same class. Details of such leased assets are disclosed in Note 23.

The key assumptions include forecasted revenue growth rate that ranges between - 6.7% and 1.7%, terminal growth rate of 2.2% and discount rate of 12.8%. Based on the assessment, a reversal of impairment loss of \$4,700,000 was recorded for the financial year ended 30 September 2022. During the financial year, there were indicators that the impairment loss recognised in prior period may need to be reversed for the Group's associate, Pristine Islands Investment Pte. Ltd., due to recovery of the economic conditions in the hospitality and tourism industry of Maldives where the associate operates. The Group and Company carried out a review of the recoverable amount of this investment. The recoverable amount was estimated based on the value-in-use model.

The key assumptions underlying the Group's impairment assessment of its interest in an associate and the associate's assessment of its underlying investee's operations which comprises hotel and resort operations and airport management are:

- Cash flow projections covering a 5-year period; and
- Cash flows beyond the 5-year period were extrapolated using an estimated long-term growth rate which did not exceed the long-term average growth rate of the country in which the associate's investments are located.

### 32. Fair value of assets and liabilities

#### (a) Fair value hierarchy

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 Quoted prices (unadjusted) in active market for identical assets or liabilities that the Group can access at the measurement date,
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3 Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

#### (c) Level 2 fair value measurements

The following is a description of the valuation techniques and inputs used in the fair value measurement for assets and liabilities that are categorised within Level 2 of the fair value hierarchy:

#### Derivatives (Note 19):

Currency forward contracts are valued according to valuations obtained from reputable financial institutions as at the end of the reporting period.

#### (d) Level 3 fair value measurements

The Group applied the 'most likely amount method' to predict steel reinforcement index based on historical published indices from the Building and Construction Authority, spot sales prices and steel price trends. The Group also takes into consideration the credit risk with reference to the provisional matrix developed under the simplified approach for lifetime ECL, which involves adjustment to historical credit loss experience with forward-looking information such as forecast of economic conditions.

#### (e) Assets not measured at fair value, for which fair value is disclosed

The following table shows an analysis of the Group's assets not measured at fair value, for which fair value is disclosed:

### 33. Financial risk management objective and policies

The Group and the Company are exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk and foreign currency risk. The Board of Directors reviews and agrees on the policies and procedures for the management of these risks, which are executed by the Chief Executive Officer and/or the Chief Financial Officer.

The following sections provide details regarding the Group's and the Company's exposure to the abovementioned financial risks and the objectives, policies and procedures for the management of these risks.

### (a) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's credit risk arises primarily from trade and other receivables. For other financial assets (including investment securities, derivatives, and cash and cash equivalents), the Group and the Company minimise credit risks by dealing exclusively with high credit rating counterparties.

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

The Group has determined the default event on a financial asset to be when the counterparty fails to make contractual payments, within 90 days when they fall due, which are derived based on the Group's historical information.

The Group considers available reasonable and supportive forwarding-looking information which includes the following indicators:

- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations.
- Actual or expected significant changes in the operating results of the borrower.
- Significant increases in credit risk on other financial instruments of the same borrower.

For the financial year ended 30 September 2022

### 33. Financial risk management objective and policies (cont'd)

#### (a) Credit risk (cont'd)

- Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements.
- Significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers in the group and changes in the operating results of the borrower.

Regardless of the analysis above, a financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- There is significant difficulty of the issuer or the borrower.
- A breach of contract, such as a default or past due event.
- It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.
- There is a disappearance of an active market for that financial asset because of financial difficulty.

The Group categorises a loan or receivable for potential write-off when a debtor fails to make contractual payments more than 90 days past due. Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. Where loans and receivables have been written off, the company continues to engage enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

The following are credit risk management practices and quantitative and qualitative information about amounts arising from expected credit losses for each class of financial assets.

#### Trade receivables

The Group provides for lifetime expected credit losses for all trade receivables using a provision matrix. The provision rates are determined based on the Group's historical observed default rates analysed in accordance to days past due. The loss allowance provision as at 30 September 2022 is determined as follows, the expected credit losses below also incorporate forward-looking information such as forecast of economic conditions.

Summarised below is the information about the credit risk exposure on the Group's trade receivables at amortised cost, excluding trade receivables subject to provisional pricing, using provision matrix.

	Current	1 to 30 days past due	31 to 60 days past due	61 to 90 days past due	More than 90 days past due	Total
2022	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000

	64,498	32,588	9,929	538	179	107,732

Information regarding loss allowance movement of trade receivables are disclosed in Note 18.

During the financial year, the Group wrote off \$1,706,000 (2021: \$4,530,000) of trade receivables which were more than 90 days past due as the Group does not expect to receive future cash flows.

#### Financial guarantees

The Group assessed the expected credit loss for financial guarantees using the probability of default approach. In determining ECL for financial guarantees, the Group considers events such as breach of loan covenants, default on instalment payments and determined that significant increase in credit risk occur when there is changes in the risk that the specific debtor will default on the contract and concluded no provision is required as at 30 September 2022 and 2021.

### Credit risk concentration profile

The Group's and the Company's trade receivables concentration profiles by geographical areas and industry sectors as at the end of reporting period are as follows:

	Group

## 33. Financial risk management objective and policies (cont'd)

### (a) Credit risk (cont'd)

At the end of the reporting period, approximately:

- 35% (2021: 44%) of the Group's and 37% (2021: 45%) of the Company's trade receivables were due from 10 (2021: 10) major customers who are in the construction industry in Singapore.
- 6% (2021: 8%) of the Company's trade and other receivables were due from related parties.

#### Amount due from subsidiaries and related parties

The Company assessed the latest performance and financial position of the counterparties, adjusted for the future outlook of the industry in which the counterparties operate in, and concluded that there has been no significant increase in the credit risk since the initial recognition of the financial assets. Accordingly, the Company measured the allowance for expected credit loss using 12-month ECL and made a loss allowance of \$5,983,000 during the year (Note 14).

#### (b) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities.

The Group and the Company manage liquidity risk by ensuring the availability of funding through an adequate amount of committed credit facilities from reputable financial institutions. In addition, the Group and the Company also maintain sufficient cash balances for operating and future investment opportunities.

#### Analysis of financial instruments by remaining contractual maturities

The table below summarises the maturity profile of the Group's and the Company's financial assets and liabilities at the end of reporting period based on contractual undiscounted repayment obligations:

### 33. Financial risk management objective and policies (cont'd)

#### (b) Liquidity risk (cont'd)

The table below shows the contractual expiry by maturity of the Group and Company's commitments. The maximum amount of the corporate guarantee is allocated to the earliest period in which the guarantee could be called.

	2022	2021
Group and Company	\$'000	\$'000
Corporate guarantee – 1 year or less	1,282	1,236
Corporate guarantee – 1 to 5 years	7,422	8,230
	8,704	9,466

#### (c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates. The Group's and the Company's exposure to interest rate risk arises primarily from their loans and borrowings. All of the Group's and the Company's financial assets and liabilities at floating rates are contractually re-priced at intervals of less than 6 months (2021: 6 months) from the balance sheet date.

#### Sensitivity analysis for interest rate risk

At the end of reporting period, if SGD interest rates had been 50 basis points lower/higher with all other variables constant, the Group's profit before tax would have been \$1,984,000 (2021: \$1,719,000) higher/lower respectively as a result of lower/higher interest expense on floating rate loans and borrowings.

### (d) Foreign currency risk

The Group and the Company have transactional currency exposures arising from purchases that are denominated in a currency other than the respective functional currencies of the Group entities. The foreign currency in which these transactions are denominated is mainly the US Dollar ("USD") and Australian Dollar ("AUD") (2021: USD).

The Group and the Company also hold cash and cash equivalents denominated in foreign currencies for working capital purposes. At the end of the reporting period, such foreign currency balances are mainly in USD and AUD (2021: USD).

The Group and the Company use currency forward contracts to hedge its exposure to foreign currency exchange risk arising from purchases which are mainly denominated in USD.

For the financial year ended 30 September 2022

## 33. Financial risk management objective and policies (cont'd)

### (d) Foreign currency risk (cont'd)

Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity to a reasonably possible change in the USD/SGD exchange rate, with all other variables held constant, of the Group's profit before tax:

	2022	2021
	Profi	t before tax
	Increase (decrease	(,
Group	\$'000	\$'000
USD/SGD - strengthened 7% (2021: 7%)	5,214	(1,377)
- weakened 7% (2021: 7%)	(5,214)	1,377

The Impact of a reasonably possible change in AUD/SGD exchange rate is not significant to the results of the Group.

### 34. Capital management

The primary objective of the Group's capital management is to ensure that it maintains healthy capital structure in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the financial years ended 30 September 2022 and 2021.

The Group monitors capital using a gearing ratio, which is net debt divided by capital plus net debt. The Group includes within net debt, loans and borrowings and loan from immediate holding company less cash and cash equivalents. Capital includes equity attributable to owners of the Company.

	Group	
	2022	2021

### 35. Impact of Covid-19

## 2. PROPOSED RENEWAL OF SHARE PURCHASE MANDATE

#### 2.1 Background and Rationale

It is a requirement under the Companies Act for a company to obtain the approval of its shareholders to purchase or otherwise acquire its own shares at a general meeting of its shareholders. At the 2022 AGM held on 27 January 2022, Shareholders had approved, *inter alia*, the renewal of the Share Purchase Mandate, authorising the Company to purchase or otherwise acquire issued Shares.

The Share Purchase Mandate will expire on the date of the 2023 AGM, unless renewed. The Directors wish to renew the Share Purchase Mandate to allow the Company to purchase issued Shares. The Share Purchase Mandate will allow the Directors to make share purchases at the appropriate price level and is one of the ways through which the return on equity of the Group may be enhanced. Share purchases or acquisitions provide the Company with an easy mechanism to facilitate the return of surplus cash over and above its ordinary capital requirements in an expedient and cost-efficient manner. Share purchases or acquisitions also allow the Directors to exercise control over the share structure of the Company and may, depending on market conditions and funding arrangements at the time, lead to an enhancement of the EPS and/or NTA per Share of the Company.

During the period when the Share Purchase Mandate is in force, the Share Purchase Mandate will give the Directors the flexibility to purchase or acquire Shares when and if the circumstances permit. The Share Purchase Mandate will also give the Company the opportunity to purchase or acquire Shares when such Shares are undervalued, to help mitigate short-term market volatility and to offset the effects of short-term speculation. The Share Purchase Mandate will also allow the Directors to effectively manage and minimise the dilution impact (if any) associated with share option schemes and performance share plans.

While the Share Purchase Mandate would authorise a purchase or acquisition of Shares of up to ten per cent. (10%) of the issued share capital of the Company (excluding Treasury Shares and subsidiary holdings) as at the date of the AGM at which the Share Purchase Mandate is approved), Shareholders should note that purchases and acquisitions of Shares pursuant to the Share Purchase Mandate may not be carried out to the full ten per cent. (10%) limit as authorised and no purchases or acquisitions of Shares would be made in circumstances which would have or may have a material adverse effect on the financial position of the Company or the Group, or result in the Company being delisted from the SGX-ST. Please refer to Paragraph 2.2(a) below for further information on the Maximum Percentage (as defined below).

## LETTER TO SHAREHOLDERS

### 2.2 Details of the Share Purchase Mandate

The authority and limitations placed on purchases or acquisitions of Shares under the Share Purchase Mandate, if renewed at the 2023 AGM, are the same as previously approved by Shareholders at the 2022 AGM and, for the benefit of Shareholders, are summarised below:

### (a) Maximum Number of Shares

Only Shares which are issued and fully paid-up may be purchased by the Company. The total number of Shares which may be purchased is limited to that number of Shares representing not more than ten per cent. (10%) of the issued Shares (excluding Treasury Shares and subsidiary holdings) as at the Approval Date ("**Maximum Percentage**"), unless the Company has, at any time during the Relevant Period, effected a reduction of its share capital in accordance with the Companies Act, in which event the issued share capital of the Company as altered pursuant to such reduction, and subject always to the free float requirement as set out in Paragraph 2.10 of this Appendix.

As at the Latest Practicable Date, the Company is holding 1,626,600 Shares as Treasury Shares and has no subsidiary holdings. Based on 274,350,089 Shares in issue (excluding Treasury Shares) as at the Latest Practicable Date and assuming that no further Shares are issued, no further Shares are purchased or acquired and held by the Company as Treasury Shares and there are no subsidiary holdings on or prior to the 2023 AGM, the purchase by the Company of up to the maximum limit of ten per cent. (10%) of its issued Shares (excluding Treasury Shares and subsidiary holdings) will result in the purchase or acquisition of 27,435,008 Shares.

However, as stated in Paragraph 2.10 below, purchases or acquisitions pursuant to the Share Purchase Mandate need not be carried out to the full extent mandated, and, in any case, would not be carried out to such an extent that would result in the Company being delisted from the SGX-ST. **Thus, notwithstanding that the Share Purchase Mandate may enable purchases or acquisitions of up to 10% of the issued Shares (excluding Treasury Shares and subsidiary holdings) to be carried out, it should be noted that in order to maintain the listing status of the Shares on the SGX-ST, the Company must ensure (pursuant to Rule 723 of the Listing Manual) that there is at all times a public float of not less than 10% in the issued Shares**. In other words, the Maximum Percentage gives the Company the flexibility to purchase or acquire its Shares up to the Maximum Percentage, should the Company's free float subsequently allow for the same.

Accordingly, assuming solely for illustrative purposes that 49,093,653 Shares (or 17.89% of the issued Shares (excluding Treasury Shares)) are held in public hands as at the Latest Practicable Date, in order to preserve the listing status of the Shares on the SGX-ST by maintaining a public float of not less than 10% in the issued Shares (excluding Treasury Shares), the Company would not purchase or acquire more than 24,065,160 Shares (or 8.77% of the issued Shares (excluding Treasury Shares and subsidiary holdings) as at that date) pursuant to the Share Purchase Mandate. The public float in the issued Shares as at the Latest Practicable Date is disclosed in Paragraph 2.10 below.

#### (b) **Duration of Authority**

Purchases or acquisitions of Shares may be made, at any time and from time to time, on and from the date of the AGM at which the renewal of the Share Purchase Mandate is approved, up to the earliest of:

- (i) the next AGM of the Company is held or required by law to be held;
- (ii) purchases and acquisitions of Shares pursuant to the Share Purchase Mandate are carried out to the full extent mandated; or
- (iii) the authority conferred by the Share Purchase Mandate is varied or revoked.

## LETTER TO SHAREHOLDERS

### (c) Manner of Purchases

Purchases or acquisitions of Shares may be made on the SGX-ST ("**On-Market Purchases**"); and/or otherwise than on the SGX-ST, effected pursuant to an equal access scheme ("**Off-Market Purchases**").

On-Market Purchases refer to purchases of Shares by the Company transacted on the SGX-ST through the ready market, through one or more duly licensed stockbrokers appointed by the Company for the purpose.

Off-Market Purchases refer to purchases of Shares by the Company made under an equal access scheme or schemes for the purchase of Shares from Shareholders. The Directors may impose such terms and conditions, which are consistent with the Share Purchase Mandate, the Listing Manual and the Companies Act, as they consider fit in the interests of the Company in connection with or in relation to an equal access scheme or schemes. Under the Companies Act, an equal access scheme must satisfy all the following conditions:

- (i) offers for the purchase or acquisition of issued Shares shall be made to every person who holds issued Shares to purchase or acquire the same percentage of their issued Shares;
- (ii) all of those persons shall be given a reasonable opportunity to accept the offers made to them; and
- (iii) the terms of all the offers are the same, except that there shall be disregarded:
  - (A) differences in consideration attributable to the fact that offers relate to Shares with different accrued dividend entitlements;
  - (B) differences in consideration attributable to the fact that offers relate to Shares with different amounts remaining unpaid; and
  - (C) differences in the offers introduced solely to ensure that each person is left with a whole number of Shares.

In addition, pursuant to Rule 885 of the Listing Manual and Section 76C of the Companies Act, in making an Off-Market Purchase in accordance with an equal access scheme, the Company must issue an offer document or notice to all Shareholders which must contain at least the following information:

- (I) the terms and conditions of the offer;
- (II) the maximum number of Shares or the maximum percentage of ordinary shares authorised to be purchased or acquired;
- (III) the maximum price which may be paid for the Shares;
- (IV) the date on which the Share Purchase Mandate is to expire, being a date that must not be later than the date on which the next AGM of the Company is or is required by law to be held, whichever is earlier;
- (V) the sources of funds to be used for the purchase or acquisition of the Shares including the amount of financing and its impact on the Company's financial position;
- (VI) the period and procedures for acceptances;
- (VII) the reasons for the proposed purchase or acquisition of Shares;

## LETTER TO SHAREHOLDERS

- (VIII) the consequences, if any, of the proposed purchase or acquisition of Shares by the Company that will arise under the Take-over Code or other applicable take-over rules;
- (IX) whether the purchase or acquisition of Shares, if made, would have any effect on the listing of the Shares on the SGX-ST;
- (X) details of any purchase or acquisition of Shares made by the Company in the previous twelve (12) months (whether by way of On-Market Purchases or Off-Market Purchases), giving the total number of Shares purchased or acquired, the purchase price per Share or the highest and lowest prices paid for the purchases or acquisitions, where relevant, and the total consideration paid for the purchases; and
- (XI) whether the Shares purchased by the Company will be cancelled or kept as Treasury Shares.

#### (d) Maximum Purchase Price

The purchase price (excluding related brokerage, commission, applicable goods and services tax, stamp duties, clearance fees and other related expenses) to be paid for the Shares will be determined by the Directors. The purchase price to be paid for the Shares as determined by the Directors must not exceed:

- (i) in the case of an On-Market Purchase, one hundred and five per cent. (105%) of the Average Closing Price (as defined hereinafter) of the Shares; and
- (ii) in the case of an Off-Market Purchase, one hundred and ten per cent. (110%) of the Average Closing Price of the Shares,

in each case, excluding related expenses of the purchase or acquisition ("Maximum Price").

"Average Closing Price" means the average of the closing market prices of a Share for the five days on which the SGX-ST is open for trading in securities ("Market Days") on which transactions in the Shares were recorded, before the day on which the purchase or acquisition of Shares was made, or, as the case may be, the date of the making of the offer pursuant to the Off-Market Purchase, and deemed to be adjusted, in accordance with the Listing Manual, for any corporate action that occurs after the relevant five (5) Market Day period; and

"date of the making of the offer" means the date on which the Company announces its intention to make an offer for an Off-Market Purchase, stating therein the purchase price (which shall not be more than the Maximum Price for an Off-Market Purchase calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase.

### 2.3 Status of Purchased Shares

Any Share which is purchased or acquired by the Company is deemed cancelled immediately on purchase or acquisition (and all rights and privileges attached to the Share will expire on such cancellation) unless such Share is held by the Company as a Treasury Share. At the time of each purchase or acquisition of the Shares by the Company, the Directors will decide whether the Shares purchased will be cancelled or kept as Treasury Shares. Accordingly, the total number of issued Shares will be diminished by the number of Shares purchased or acquired by the Company, which are cancelled and are not held as Treasury Shares.

All Shares purchased or acquired by the Company (other than Treasury Shares held by the Company to the extent permitted under the Companies Act) will be automatically delisted by the SGX-ST, and certificates (if any) in respect thereof will be cancelled and destroyed by the Company as soon as reasonably practicable following settlement of any such purchase or acquisition.

## LETTER TO SHAREHOLDERS

### 2.4 **Treasury Shares**

Under the Companies Act, Shares purchased or acquired by the Company may be held or dealt with as Treasury Shares. Some of the key provisions on treasury shares under the Companies Act are summarised below:

#### (a) Maximum Holdings

The number of Shares held as Treasury Shares cannot at any time exceed ten per cent. (10%) of the total number of issued Shares.

#### (b) Voting and Other Rights

The Company cannot exercise any right in respect of the Treasury Shares. In particular, the Company will not have the right to attend or vote at meetings and to receive any dividends or other distribution of the Company's assets in respect of the Treasury Shares.

However, the allotment of Treasury Shares as fully paid bonus shares in respect of Treasury Shares is allowed. A subdivision or consolidation of any Treasury Share into Treasury Shares of a smaller number is also allowed so long as the total value of the Treasury Shares after the subdivision or consolidation is the same as before.

#### (c) **Disposal and Cancellation**

Where the Company holds Shares as Treasury Shares, it may dispose of such Treasury Shares at any time in the following ways:

- (i) sell the Treasury Shares for cash;
- (ii) transfer the Treasury Shares for the purposes of or pursuant to an employees' share scheme;
- (iii) transfer the Treasury Shares as consideration for the acquisition of shares in or assets of another company or assets of a person;
- (iv) cancel the Treasury Shares; or
- (v) sell, transfer or otherwise use the Treasury Shares for such other purposes as may be prescribed by the Minister for Finance of Singapore.

In addition, under Rule 704(28) of the Listing Manual, an immediate announcement must be made of any sale, transfer, cancellation and/or use of treasury shares (in each case, the "usage"). Such announcement must include details such as the date of the usage, the purpose of the usage, the number of treasury shares comprised in the usage, the number of treasury shares before and after the usage, the percentage of the number of treasury shares comprised in the usage against the total number of issued shares (of the same class as the treasury shares) which are listed on the SGX-ST before and after the usage and the value of the treasury shares comprised in the usage.

## LETTER TO SHAREHOLDERS

### 2.5 Reporting Requirements

Within thirty (30) days of passing a Shareholders' resolution to approve the purchase or acquisition of Shares by the Company, the Company shall lodge a copy of such resolution with ACRA.

The Company shall notify ACRA within thirty (30) days of a purchase or acquisition of Shares on the SGX-ST or otherwise. Such notification shall include details of the purchase or acquisition including the date of the purchase or acquisition, the total number of Shares purchased or acquired by the Company, the number of Shares cancelled and the number of Shares held as Treasury Shares, the Company's issued share capital before and after the purchase or acquisition of Shares, the amount of consideration paid by the Company for the purchase or acquisition, and such other information required by the Companies Act.

Rule 886 of the Listing Manual specifies that a listed company shall notify the SGX-ST of all purchases or acquisitions of its Shares not later than 9.00 a.m.:

- (a) in the case of an On-Market Purchase, on the Market Day following the day on which the On-Market Purchase was made; and
- (b) in the case of an Off-Market Purchase pursuant to an equal access scheme in accordance with Section 76C of the Companies Act, on the second Market Day after the close of acceptances of the offer for the Off-Market Purchase.

The notification of such purchases or acquisitions of Shares to the SGX-ST shall be in such form and shall include such details that the SGX-ST may prescribe. The Company shall make arrangements with its stockbrokers to ensure that they provide the Company in a timely fashion the necessary information which will enable the Company to make the notifications to the SGX-ST.

#### 2.6 Source of Funds

The Company may only apply funds for the purchase or acquisition of Shares as provided in the Constitution of the Company and in accordance with the applicable laws in Singapore. The Company may not purchase or acquire its Shares pursuant to the Share Purchase Mandate, for settlement otherwise than in accordance with the trading rules of the SGX-ST.

Under the Companies Act, purchases or acquisitions of Shares by the Company may be made out of the Company's capital or distributable profits provided that:

- (a) there is no ground on which the Company could be found to be unable to pay its debts;
- (b) if:
  - (i) it is intended to commence winding up of the Company within the period of 12 months immediately after the date of the payment, the Company will be able to pay its debts in full within the period of 12 months after the date of commencement of the winding up; or
  - (ii) it is not intended so to commence winding up, the Company will be able to pay its debts as they fall due during the period of 12 months immediately after the date of the payment; and
- (c) the value of the Company's assets is not less than the value of its liabilities (including contingent liabilities) and will not after the purchase of Shares become less than the value of its liabilities (including contingent liabilities).

## LETTER TO SHAREHOLDERS

Where the purchase of Shares is made out of distributable profits, such purchase (excluding related brokerage, commission, applicable goods and services tax, stamp duties, clearance fees and other related expenses) will correspondingly reduce the amount available for the distribution of cash dividends by the Company. Where the purchase of Shares is made out of capital, the Company shall reduce the amount of its share capital by the total amount of the purchase price paid by the Company for the Shares but the amount available for the distribution of cash dividends by the amount available for the distribution of cash dividends by the Company will not be reduced.

The Company will use its internal resources and/or external borrowings to finance its purchase or acquisition of the Shares. Where the purchase of Shares is financed through internal resources, it will reduce the cash reserves of the Group and the Company, and thus the current assets and shareholders' funds of the Group and the Company. This will result in an increase in the gearing ratios of the Group and the Company and a decline in the current ratios of the Group and the Company. The actual impact on the gearing and current ratios will depend on the number of Shares purchased or acquired and the prices at which the Shares are purchased or acquired.

Where the purchase or acquisition of Shares is financed through external borrowings or financing, there would be an increase in the gearing ratios of the Group and the Company and a decline in the current ratios of the Group and the Company, with the actual impact dependent on the number of Shares purchased or acquired and the prices at which the Shares are purchased or acquired.

However, the Directors do not propose to exercise the Share Purchase Mandate to such an extent as would have a material adverse effect on the working capital requirements of the Company or the gearing levels which, in the opinion of the Directors, are from time to time appropriate for the Company.

### 2.7 Financial Effects

The financial effects on the Company and the Group arising from purchases or acquisitions of Shares which may be made pursuant to the Share Purchase Mandate will depend on factors such as the aggregate number of Shares purchased or acquired, the purchase prices paid at the relevant time, how the purchase or acquisition is funded, whether the Shares purchased or acquired are held as Treasury Shares or immediately cancelled on purchase or acquisition as well as how the Shares, if held as Treasury Shares, are subsequently dealt with by the Company in accordance with Section 76K of the Companies Act.

Accordingly, it is not possible for the Company to calculate or quantify the actual impact of purchases or acquisitions of Shares that may be made pursuant to the Share Purchase Mandate on the NTA and EPS of the Company and the Group.

### (a) Illustrative Financial Effects

Based on 274,350,089 issued Shares (excluding Treasury Shares and subsidiary holdings) as at the Latest Practicable Date, and a public float of 17.89% in the issued Shares as at that date, the exercise of the Share Purchase Mandate, on the Latest Practicable Date, up to an extent that would not affect adversely the listing status of the Shares on the SGX-ST, might result in the purchase or acquisition by the Company of 24,065,160 Shares (or 8.77% of such issued Shares (excluding Treasury Shares and subsidiary holdings)) (instead of a purchase or acquisition of 27,435,008 Shares, representing 10% of the issued Shares (excluding Treasury Shares and subsidiary holdings)).

For illustrative purposes only, based on the audited financial statements of the Company and the Group for the FY2022 (please refer to page 49 of the Annual Report), and based on the assumptions set out below:

(i) in the case of On-Market Purchases by the Company and assuming that the Company purchases or acquires 24,065,160 Shares, representing 8.77% of its issued share capital as at the Latest Practicable Date (excluding Treasury Shares and subsidiary holdings) and the Shares are purchased at \$\$1.896 per Share, being a price representing one hundred and five per cent. (105%) of the Average Closing Price as at the Latest Practicable Date; and

## LETTER TO SHAREHOLDERS

(ii) in the case of Off-Market Purchases by the Company and assuming that the Company purchases or acquires 24,065,160 Shares, representing 8.77% of its issued share capital as at the Latest Practicable Date (excluding Treasury Shares and subsidiary holdings) and the Shares are purchased at S\$1.987 per Share, being a price representing one hundred and ten per cent. (110%) of the Average Closing Price as at the Latest Practicable Date, and provided that the purchases or acquisitions are financed entirely out of internal sources of funds and external borrowings and the purchased or acquired Shares are cancelled or held in treasury, the impact of the purchase of Shares by the Company pursuant to the Share Purchase Mandate on the Group's and the Company's audited financial statements for FY2022 would be as set out below.

- <sup>(1a)</sup> Shares (excluding Treasury Shares) as at the Latest Practicable Date;
- <sup>(1b)</sup> **"Net assets per Share attributable to owners**" is calculated based on the net assets attributable to owners and the issued and paid-up Shares (excluding Treasury Shares) as at the Latest Practicable Date;
- (1c) **"Gearing"** represents the ratio of total borrowings to total equity;
- <sup>(1d)</sup> **"Basic EPS**" is calculated based on the profit attributable to Shareholders and the number of issued and paidup Shares (excluding Treasury Shares) as at the Latest Practicable Date; and
- <sup>(1e)</sup> **"NTA per Share**" is calculated based on the NTA and the issued and paid-up Shares (excluding Treasury Shares) as at the Latest Practicable Date.

Shareholders should note that the financial effects set out in this paragraph are purely for illustrative purposes only and are in no way indicative of the Company's real financial position or a forecast of the Group's and the Company's financial figures.

#### 2.8 **Tax Implications**

The proceeds received by Shareholders from the Company will be treated for income tax purposes in the same manner as proceeds arising from any other disposal of shares. Whether the payment is taxable in the hands of such Shareholders will depend on whether such proceeds are receipt of an income or a capital nature.

Shareholders should note that the foregoing is not to be regarded as advice on the tax position of any Shareholder. Shareholders who are in doubt as to their respective tax positions or the tax implications of Share purchases by the Company, or, who may be subject to tax whether in or outside Singapore, should consult their own professional advisers.

#### 2.9 Listing Manual

Under Rule 884 of the Listing Manual, a listed company may purchase shares by way of On-Market Purchases at a price per share which is not more than five per cent. (5%) above the average of the closing market prices of the shares over the last five (5) Market Days, on which transactions in the shares were recorded, before the day on which the purchases were made, and deemed to be adjusted for any corporate action that occurs during the relevant 5-day period and the day on which the purchases are made.

The Maximum Price for a Share in relation to On-Market Purchases by the Company conforms to this restriction.

While the Listing Manual does not expressly prohibit any purchase of shares by a listed company during any particular time(s), because the listed company would be regarded as an "**insider**" in relation to any proposed purchase or acquisition of its issued shares, the Company will not undertake any purchase or acquisition of Shares pursuant to the Share Purchase Mandate at any time after any matter or development of a price-sensitive nature has occurred or has been the subject of consideration and/or a decision of the Board until such price-sensitive information has been publicly announced. In line with Rule 1207(19) of the Listing Manual and the Company's internal guide on securities dealings, the Company will not purchase or acquire any Shares during the period commencing one month before the announcement of the Company's half year and full year results and the period commencing two weeks before the voluntary announcement of the Company's results for the first and third quarters.

## LETTER TO SHAREHOLDERS

### 2.10 Listing Status

The Company is required under Rule 723 of the Listing Manual to ensure that at least ten per cent. (10%) of any class of its equity securities (excluding preference shares and convertible equity securities) are in the hands of the public. The "**public**", as defined under the Listing Manual, are persons other than its Directors, chief executive officer, Substantial Shareholders or controlling shareholders and its subsidiaries, as well as the associates of such persons. For purposes of this Appendix, the terms "**Substantial Shareholder**" and "**subsidiary**" shall have the meaning ascribed to them in the Companies Act and the terms "**controlling shareholder**" and "**associate**" shall have the meanings ascribed to them in the Listing Manual.

As at the Latest Practicable Date, there are 49,093,653 Shares in the hands of the public (as defined above), representing 17.89% of the issued Shares (excluding Treasury Shares). As such, notwithstanding that the Share Purchase Mandate may enable purchases or acquisitions of up to 10% of the issued Shares (excluding treasury shares and subsidiary holdings) to be carried out, it should be noted that in order to maintain the listing status of the Shares on the SGX-ST, in order to preserve the listing status of the Shares on the SGX-ST, in order to preserve the listing status of the Shares on the SGX-ST, in order than 24,065,160 Shares, representing 8.77% of the issued Shares (excluding Treasury Shares) as at the Latest Practicable Date. It should be noted that the foregoing statement is **for illustrative purposes only** and should not be taken as any indication that the Directors will effect such purchases of its Shares. Having regard to the Company's current free float of approximately 17.89%, the Company will only undertake purchases and/or acquisitions of Shares up to the Maximum Percentage of 10% if and when the number of Shares in the hands of the public increases subsequently to allow the Company to maintain the requisite float of 10%.

It should further be noted that in undertaking any purchases of its Shares through On-Market Purchases, the Directors will use their best efforts to ensure that a sufficient number of Shares remains in public hands so that the Share purchase(s) will not:

- (a) adversely affect the listing status of the Shares on the SGX-ST;
- (b) cause market illiquidity; or
- (c) adversely affect the orderly trading of Shares.

#### 2.11 **Obligations to Make a Take-over Offer**

Under the Take-over Code, a person will be required to make a general offer for a public company if:

- (a) he acquires thirty per cent. (30%) or more of the voting rights of the company; or
- (b) he holds between thirty per cent. (30%) and fifty per cent. (50%) of the voting rights of the company and he increases his voting rights in the company by more than one per cent. (1%) in any period of six (6) months.

If, as a result of any purchase or acquisition by the Company of its Shares, the proportionate interest in the voting capital of the Company of a Shareholder and persons acting in concert with him increases, such increase will be treated as an acquisition for the purposes of Rule 14 of the Take-over Code. If such increase results in a change of effective control, or, as a result of such increase, a Shareholder or group of Shareholders acting in concert obtains or consolidates effective control of the Company, such Shareholder or group of Shareholders acting in concert could become obliged to make a take-over offer for the Company under Rule 14 of the Take-over Code ("**Rule 14**").

## LETTER TO SHAREHOLDERS

Under the Take-over Code, persons acting in concert comprise individuals or companies who, pursuant to an agreement or understanding (whether formal or informal) co-operate, through the acquisition by any of them of shares in a company to obtain or consolidate effective control of that company. Unless the contrary is established, the following persons, inter alia, will be presumed to be acting in concert:

- (i) a company with any of its directors (together with their close relatives, related trusts as well as companies controlled by any of the directors, their close relatives and related trusts);
- (ii) a company, its parent, its subsidiaries and fellow subsidiaries, and their associated companies, and companies of which such companies are associated companies as well as any person who has provided financial assistance (other than a bank in the ordinary course of business) to any of the aforementioned entities for the purchase of voting rights, all with each other;
- (iii) a company with any of its pension funds and employee share schemes;
- (iv) a person with any investment company, unit trust or other fund whose investment such person manages on a discretionary basis, but only in respect of the investment account which such person manages;
- (v) a financial or other professional adviser, including a stockbroker, with its client in respect of the shareholdings of the adviser and the persons controlling, controlled by or under the same control as the adviser and all the funds which the adviser manages on a discretionary basis, where the shareholdings of the adviser and any of those funds in the client total 10% or more of the client's equity share capital;
- (vi) directors of a company, together with their close relatives, related trusts and companies controlled by any of such directors, their close relatives and related trusts, which is subject to an offer or where the directors have reason to believe a bona fi de offer for their company may be imminent;
- (vii) partners; and
- (viii) an individual, his close relatives, his related trusts, any person who is accustomed to act according to his instructions, companies controlled by any of the aforementioned, and any person who has provided financial assistance (other than a bank in the ordinary course of business) to any of the foregoing persons for the purchase of voting rights.

For this purpose, ownership or control of at least twenty per cent. (20%) but not more than fifty per cent. (50%) of the equity share capital of a company will be regarded as the test of associated company status. The circumstances under which Shareholders (including Directors) and persons acting in concert with them respectively will incur an obligation to make a take-over offer after a purchase or acquisition of Shares by the Company are set out in Rule 14 and Appendix 2 of the Take-over Code.

Under Appendix 2 of the Take-over Code, unless exempted, Directors and persons acting in concert with them will incur an obligation to make a take-over offer for the Company under Rule 14 if, as a result of the Company purchasing or acquiring its Shares, the voting rights in the Company of such Directors and their concert parties:

- (A) increase to thirty per cent. (30%) or more; or
- (B) if the voting rights of such Directors and their concert parties fall between thirty per cent. (30%) and fifty per cent. (50%) of the Company's voting rights, the voting rights of such Directors and their concert parties increase by more than one per cent. (1%) in any period of six (6) months.

## LETTER TO SHAREHOLDERS

A Shareholder not acting in concert with the Directors will not incur an obligation to make a take-over offer for the Company under Rule 14 if, as a result of the Company purchasing or acquiring its Shares, the voting rights of such Shareholder in the Company increase to thirty per cent. (30%) or more, or if the voting rights of such Shareholder fall between thirty per cent. (30%) and fifty per cent. (50%) of the Company's voting rights, the voting rights of such Shareholder need not abstain from voting in respect of the resolution authorising the Share Purchase Mandate.

The interests of the Directors and Substantial Shareholders as at the Latest Practicable Date are disclosed in Paragraph 7 below. As at the Latest Practicable Date, assuming that the Company purchases the maximum limit of ten per cent. (10%) of its issued Shares (excluding Treasury Shares and subsidiary holdings):

- (I) none of the Directors (together with persons acting in concert with them, if any) will be obligated to make a takeover offer for the Company under Rule 14 as a result of the purchase by the Company of Shares under the Share Purchase Mandate; and
- (II) none of the Directors is aware of any Substantial Shareholders who may become obligated to make a take-over offer for the Company under Rule 14 as a result of the purchase by the Company of Shares under the Share Purchase Mandate.

This Paragraph 2.11 does not purport to be a comprehensive or exhaustive description of all the implications that may arise under the Take-over Code. Shareholders who are in doubt as to whether they would incur any obligation to make a take-over offer as a result of any purchase of Shares by the Company pursuant to the Share Purchase Mandate are advised to consult their own professional advisers at the earliest opportunity.

### 2.12 Share Purchases in the Previous 12 Months

In the last twelve (12) months immediately preceding the Latest Practicable Date, the Company has not purchased any Shares pursuant to the Share Purchase Mandate approved by Shareholders at the 2022 AGM.

### 3. CHAPTER 9 OF THE LISTING MANUAL

Chapter 9 of the Listing Manual governs transactions by a listed company, as well as transactions by its subsidiaries and associated companies that are considered to be entities at risk, with the listed company's interested persons. The purpose is to guard against the risk that interested persons could influence the listed company, its subsidiaries or associated companies to enter into transactions with interested persons that may adversely affect the interests of the listed company or its shareholders.

Under Chapter 9 of the Listing Manual, where a listed company or any of its subsidiaries or any of its associated companies which are controlled by the listed group and its interested person(s) (other than a subsidiary or associated company that is listed on the SGX-ST or an approved stock exchange) proposes to enter into transactions with the listed company's interested persons, the listed company is required to make an immediate announcement, or to make an immediate announcement and seek its shareholders' approval if the value of the transaction is equal to or exceeds certain financial thresholds. In particular:

- (a) where the value of any such transaction is equal to or exceeds three per cent. (3%) of the latest audited consolidated NTA of the listed company and its subsidiaries and is less than five per cent. (5%) of the latest audited consolidated NTA of the listed company and its subsidiaries, an immediate announcement is required;
- (b) where the value of any such transaction is equal to or exceeds five per cent. (5%) of the latest audited consolidated NTA of the listed company and its subsidiaries, an immediate announcement and shareholders' approval are required;

# LETTER TO SHAREHOLDERS

- (c) if the aggregate value of all transactions entered into with the same interested person during the same financial year amounts to three per cent. (3%) or more of the latest audited consolidated NTA of the listed company and its subsidiaries, the listed company must make an immediate announcement of the latest transaction and all future transactions entered into with that same interested person during that financial year; and
- (d) if the aggregate value of all transactions entered into with the same interested person during the same financial year amounts to five per cent. (5%) or more of the latest audited consolidated NTA of the listed company and its subsidiaries, an immediate announcement must be made and shareholders' approval must be obtained in respect of the latest and all future transactions entered into with that interested person during that financial year.

The rules referred to above do not apply to any transaction below S\$100,000.

Based on the Group's audited consolidated financial statements for FY2022, three per cent. (3%) and five per cent. (5%) of the latest audited consolidated NTA of the Group as at 30 September 2022 is S\$11.96 million and S\$19.94 million, respectively.

Chapter 9 of the Listing Manual permits a listed company to seek a general mandate from its shareholders for recurrent transactions of a revenue or trading nature or those necessary for its day-to-day operations such as the purchase and sale of supplies and materials (but not in respect of the purchase or sale of assets, undertakings or businesses) that may be carried out with the listed company's interested persons.

Under the Listing Manual:

- (i) an "**entity at risk**" means:
  - (A) the listed company;
  - (B) a subsidiary of the listed company that is not listed on the SGX-ST or an approved exchange; or
  - (C) an associated company of the listed company that is not listed on the SGX-ST or an approved exchange, provided that the listed group, or the listed group and its interested person(s), has control over the associated company;
- (ii) an "**interested person**" means a director, chief executive officer or controlling shareholder of the listed company or an associate of any such director, chief executive officer or controlling shareholder;
- (iii) an "associate":
  - (A) in relation to any director, chief executive officer, substantial shareholder or controlling shareholder (being an individual) means:
    - (I) his immediate family (that is, the person's spouse, child, adopted-child, step-child, sibling and parent);
    - (II) the trustees of any trust of which he or his immediate family is a beneficiary or, in the case of a discretionary trust, is a discretionary object; and
    - (III) any company in which he and his immediate family together (directly or indirectly) have an interest of thirty per cent. (30%) or more;

# LETTER TO SHAREHOLDERS

- (B) in relation to a substantial shareholder or a controlling shareholder (being a company) means any other company which is its subsidiary or holding company or is a subsidiary of such holding company or one in the equity of which it and/or such other company or companies taken together (directly or indirectly) have an interest of thirty per cent. (30%) or more;
- (iv) an "**approved exchange**" means a stock exchange that has rules which safeguard the interests of shareholders against interested person transactions according to similar principles to Chapter 9 of the Listing Manual;
- (v) an "**interested person transaction**" means a transaction between an entity at risk and an interested person; and
- (vi) a "transaction" includes:
  - (A) the provision or receipt of financial assistance;
  - (B) the acquisition, disposal or leasing of assets;
  - (C) the provision or receipt of services;
  - (D) the issuance or subscription of securities;
  - (E) the granting of or being granted options; and

whether or not in the ordinary course of business, and whether or not entered into directly or indirectly (for example, through one or more interposed entities).

## 4. PROPOSED RENEWAL OF BPT/SEHE IPT MANDATE

### 4.1 **Background on the BPT/SEHE IPT Mandate**

At the 2022 AGM, Shareholders had approved, *inter alia*, the renewal of an interested person transaction mandate pursuant to Rule 920 of the Listing Manual for recurrent interested person transactions to be entered into by the Company with the BPT/SEHE Mandated Interested Persons in the ordinary course of business.

The BPT/SEHE IPT Mandate is subject to annual renewal and accordingly, it is proposed that the Proposed Renewal of BPT/SEHE IPT Mandate be put forth for Shareholders' approval at the 2023 AGM.

### 4.2 **BPT/SEHE IPT Mandate**

The Group is principally engaged in the business of design, manufacture and supply of steel reinforcement for construction, and is the leading steel reinforcing solutions provider in Singapore. The Group evaluates the types of prefabricated steel reinforcement required by project, as well as design, manufacture, pack and tag the prefabricated steel reinforcing components for easy and efficient handling and on-site assembly.

## LETTER TO SHAREHOLDERS

Mr. You has a deemed shareholding interest in 167,795,536 Shares, representing an interest of approximately 61.16% in the Company (excluding Treasury Shares), and is accordingly a Controlling Shareholder of the Company. Mr. You's shareholding interest in the Company is held through his wholly-owned special purpose vehicle AVIL which in turn holds 100% of the shares in Esteel. Esteel in turn holds 167,795,536 Shares, representing approximately 61.16% of share capital of the Company (excluding Treasury Shares).

Pursuant to the BPT/SEHE IPT Mandate, the Group can enter into BPT/SEHE Mandated Transactions with BPT/SEHE Mandated Interested Persons.

### 4.3 **BPT/SEHE Mandated Transactions**

BPT/SEHE Mandated Transactions comprise the purchase and/or sale of raw materials and intermediate goods, comprising steel, steel products, steel-related products and steel by-products used by the Company for its business activities, to lock in prices for such products which are attractive and cost-efficient and ensure that such prices are complementary to the Company's risk appetite, internal practices and pricing policies.

The Company will benefit from having access to competitive quotes from the BPT/SEHE Mandated Interested Persons on payment and credit terms which are arm's length and (a) not more favourable than those offered to third party customers or (b) not less favourable than those offered by third party suppliers (as the case may be), in addition to obtaining quotes from non-interested and unrelated third party persons.

#### 4.4 **BPT/SEHE Mandated Interested Persons**

The interested persons to be covered under the Proposed Renewal of the BPT/SEHE IPT Mandate are BPT and SEHE (collectively, "**BPT/SEHE Mandated Interested Persons**"), each being an associate of Mr. You.

BPT is a private company limited by shares and was incorporated in Singapore on 5 October 2016. BPT is one hundred per cent. (100%) held by Theme International Holdings Limited. Theme International is listed on the SEHK and is seventy-one point two-nine per cent. (71.29%) owned by Wide Bridge Limited, with the balance owned by public shareholders. Wide Bridge Limited is in turn one hundred per cent. (100%) beneficially owned by Mr. You. Accordingly, BPT is an **"associate"** of Mr. You and an **"interested person**". The principal business activities of BPT comprise the wholesale of metals and metals ores and wholesale on a fee or contract basis.

SEHE is a private company limited by shares and was incorporated in the PRC on 7 March 2018. Mr. You Zhenwu, the brother of Mr. You, has a deemed shareholding interest of seventy per cent. (70%) in SEHE which is held through Emetal Industrial Group Co., Ltd. which is in turn indirectly controlled by RGL Group Co., Ltd. in which Mr. You Zhenwu has an aggregate interest of eighty-eight point two-four per cent. (88.24%) which is held directly and indirectly through Shanghai Huaxi Industrial Co., Ltd.. Accordingly, SEHE is an "**associate**" of Mr. You and an "**interested person**". The principal business activities of SEHE comprise the import and export of steel, iron ore products and building materials.

#### 4.5 **Rationale for the Proposed Renewal of BPT/SEHE IPT Mandate**

The Proposed Renewal of BPT/SEHE IPT Mandate will:

- (a) facilitate the entry into BPT/SEHE Mandated Transactions with the BPT/SEHE Mandated Interested Persons in the ordinary course of the Group's businesses;
- (b) give the Company the ability to select transactions, service providers, customers or business relationships on the basis of which provides the best commercial advantage to the Company regardless of relationship with its interested persons; and

## LETTER TO SHAREHOLDERS

- (c) eliminate the need to convene separate general meetings under Chapter 9 of the Listing Manual, to seek Shareholders' approval, thereby:
  - (i) substantially reducing administrative time and costs associated with the convening of such meetings;
  - (ii) avoiding delay in the execution of financing transactions which facilitate the Group's business;
  - (iii) enabling the Group to maintain its overall competitiveness and not be disadvantaged as compared to other parties that do not require Shareholders' approval to be obtained for entering into such transactions; and
  - (iv) allowing manpower resources and time to be channelled towards attaining corporate objectives rather than to the convening of repeated Shareholders' meetings.

#### 4.6 **Guidelines and Review Procedures in respect of the BPT/SEHE IPT Mandate**

#### (a) **Review Procedures**

Quotation exercises are generally conducted for most of the Company's purchases except where the transaction value is below the threshold specified in the internal control procedures of the Group which are in line with the non-appliable threshold stipulated in Chapter 9 of the Listing Manual. The specific terms of supply and/or purchase in a Buy-Sell Transaction are usually contained in a Purchase Order.

To ensure that the BPT/SEHE Mandated Transactions with BPT/SEHE Mandated Interested Persons are undertaken at:

- arm's length and on normal commercial terms, being consistent with the Company's usual business practices and on terms which, taken as a whole, are not more favourable than those extended to unrelated third parties (in the case of sale or provision of Goods by the Company) or not less favourable than those obtained from unrelated third parties (in the case of purchase or procurement of Goods by the Company); or
- (ii) in any event on terms, which taken as a whole, are not prejudicial to the interests of the Company and the minority Shareholders, the Company will adopt the following review procedures:
  - (A) When purchasing Goods from a BPT/SEHE Mandated Interested Person, the Company will require that rate quotations for the relevant product be obtained from the Shanghai Futures Exchange, being the only active futures market for steel rebars, to the extent such rate quotations are reasonably representative of market transactions after taking into account the nature, quantum and frequency of Buy-Sell Transactions involved. The Company will only enter into such purchasing transactions with such BPT/SEHE Mandated Interested Person provided that the rate quoted is on terms competitive and not prejudicial to the interest of the Company as compared to those rate(s) obtained from the Shanghai Futures Exchange (and taking into account, where applicable, the futures market situation). In determining whether the price and terms offered by such BPT/SEHE Mandated Interested Person are competitive and not prejudicial to the interest of the Company, all pertinent factors, including but not limited to quality, track record, specification compliance, delivery time, experience and expertise, and where applicable, preferential rates, discounts or rebates accorded for bulk purchases, may be taken into consideration.

## LETTER TO SHAREHOLDERS

In the event that such competitive quotations cannot be obtained from the Shanghai Futures Exchange (for instance, if at or around the time the Company intends to enter into the Buy-Sell Transaction with the relevant BPT/SEHE Mandated Interested Person, there are no similar transactions of a Good being traded on the Shanghai Futures Exchange of a similar quantity within a comparable timeframe), the Company will require that quotations for the relevant product be obtained from at least two (2) other unrelated third party suppliers for similar quantities and/or quality of products (which may include products manufactured in other countries) for comparison. The pricing for products will not be higher than the most competitive price obtained through the unrelated third party quotations to ensure that the price and terms offered by the BPT/SEHE Mandated Interested Person are fair and reasonable and competitive to those offered by other unrelated third parties for the same or similar type of products. In determining the transaction price payable to such BPT/SEHE Mandated Interested Person for such products, all pertinent factors, including but not limited to quality, track record, specification compliance, delivery time, experience and expertise, and where applicable, preferential rates, discounts or rebates accorded for bulk purchases, may also be taken into consideration.

(B) When selling Goods to a BPT/SEHE Mandated Interested Person, the Company will require that rate quotations for the relevant product be obtained from the Shanghai Futures Exchange to the extent such rate quotations are reasonably representative of market transactions after taking into account the nature, quantum and frequency of Buy-Sell Transactions involved. The Company will only enter into such selling transactions with such BPT/SEHE Mandated Interested Person provided that the rate quoted is on terms competitive and not prejudicial to the interest of the Company as compared to those rate(s) obtained from the futures exchange(s) (and taking into account, where applicable, the futures market situation). Considerations such as preferential rates, discounts and/or rebates accorded to corporate customers or for bulk purchases will be taken into account in the assessment.

In the event that contracted sale rates or prices are not available on the Shanghai Futures Exchange (for instance, at or around the time the Company intends to enter into the Buy-Sell Transaction with the relevant BPT/SEHE Mandated Interested Person, there are no similar transactions of a Good being traded on the Shanghai Futures Exchange of a similar quantity within a comparable timeframe), the Company will require that quotations for the relevant product be obtained from at least two (2) other unrelated third party suppliers for similar quantities and/or quality of products (which may include products manufactured in other countries) for comparison. The pricing for products will not be lower than the most competitive price obtained through the unrelated third party quotations to ensure that the price and terms offered by the BPT/SEHE Mandated Interested Person are fair and reasonable and competitive to those offered by other unrelated third parties for the same or similar type of products and generally in accordance (where applicable) with industry norms. The transaction prices will, where applicable, be in accordance with the Company's usual business practices and pricing policies, consistent with the usual margin of the Company for the same or substantially similar type(s) of transaction with unrelated third parties. In determining the transaction price payable by such BPT/SEHE Mandated Interested Person for such products, all pertinent factors, including but not limited to quantity, volume, duration of contract, strategic purposes of the transaction, and where applicable, preferential rates, discounts and/or rebates accorded for bulk purchases, will also be taken into account in the assessment.

If a member of the Audit and Risk Management Committee has an interest in a transaction or is a nominee for the time being of either or both of the BPT/SEHE Mandated Interested Persons, or if any associate of a member of the Audit and Risk Management Committee is involved in the decision-making process on the part of either or both of the BPT/SEHE Mandated Interested Persons, he shall abstain from participating in the review and approval process of the Audit and Risk Management Committee in relation to that transaction.

The Audit and Risk Management Committee will review the register of mandated transactions on a quarterly basis to ascertain that the guidelines and review procedures for BPT/SEHE Mandated Transactions have been complied with. In such a situation, prior to obtaining the new Shareholders' mandate, all transactions with the BPT/SEHE Mandated Interested Persons will be reviewed and approved by the Audit and Risk Management Committee.

# 5. PROPOSED RENEWAL OF HLIH GROUP IPT MANDATE

## 5.1 **Background on the HLIH Group IPT Mandate**

At the 2022 EGM, Shareholders had granted an interested person transaction mandate pursuant to Rule 920 of the Listing Manual for recurrent interested person transactions to be entered into by the Company with the HLIH Group Mandated Interested Persons in the ordinary course of business and as set out in the HLIH Group IPT Mandate Circular.

The HLIH Group IPT Mandate is subject to annual renewal and accordingly, it is proposed that the Proposed Renewal of HLIH Group IPT Mandate be put forth for Shareholders' approval at the 2023 AGM.

## 5.2 HLIH Group IPT Mandate

The Group is principally engaged in the business of design, manufacture and supply of steel reinforcement for construction, and is the leading steel reinforcing solutions provider in Singapore. The Group evaluates the types of prefabricated steel reinforcement required by project, as well as design, manufacture, pack and tag the prefabricated steel reinforcing components for easy and efficient handling and on-site assembly.

Based on the Register of Substantial Shareholders of the Company as at the Latest Practicable Date, HLA has a direct shareholding interest in 54,875,000 Shares, representing an interest of approximately 20.00% in the Company (excluding Treasury Shares), and is accordingly a Controlling Shareholder of the Company. HLIH is the ultimate holding company of HLA and is deemed under Section 4 of the Securities and Futures Act 2001 to have an interest in the shares in the capital of the Company held by the subsidiaries of HLIH, which include HLAI. Accordingly, HLIH is also a Controlling Shareholder of the Company. Pursuant to Rule 904(4) of the Listing Manual, HLIH and its associates are deemed as "**interested persons**" within the meaning of Chapter 9 of the Listing Manual, and transactions between the Group and the HLIH Group are deemed "**interested person transactions**" within the meaning of Chapter 9 of the Listing Manual.

Pursuant to the HLIH Group IPT Mandate, the Group can enter into HLIH Group Mandated Transactions with HLIH Group Mandated Interested Persons.

# LETTER TO SHAREHOLDERS

# 5.3 HLIH Group Mandated Transactions

HLIH Group Mandated Transactions comprise the purchase and/or sale of raw materials and intermediate goods comprising steel, steel products, steel-related products and steel by-products used by the Group for its business activities.

The Group has entered into, and expects to continue entering into, certain recurrent transaction transactions with the HLIH Group, as set out in the paragraph above, in the ordinary course of business to leverage on synergies between the businesses of the two groups. Such recurrent transactions are likely to occur with some degree of frequency and are part of the day-to-day operations of the Group, and could arise at any time.

## 5.4 **HLIH Group Mandated Interested Persons**

The interested persons to be covered under the Proposed Renewal of HLIH Group IPT Mandate as set out in the table below (collectively, the "**HLIH Group Mandated Interested Persons**"), all of which are associates of HLIH:

Name of entity	Relationship with HLIH	Country of incorporation	Principal business
HL Building Materials Pte. Ltd.	Subsidiary of HLA (of which HLIH is the ultimate holding company)	Singapore	Manufacturing and distribution of building materials, and investment holding
Southern Steel Berhad (listed on the Bursa Malaysia Securities Berhad)	HLIH being an indirect 71% shareholder (held through companies which HLIH has an interest) <sup>3</sup>	Malaysia	Investment holding, manufacturing, sale and trading in steel bars and related products
HL-Manufacturing Industries Sdn. Bhd.	Subsidiary of HLA (of which HLIH is the ultimate holding company)	Malaysia	Manufacture and sale of pre- cast concrete products and general construction

#### 5.5 Rationale for the Proposed Renewal of HLIH Group IPT Mandate

In view of the time-sensitive nature of commercial transactions, and the need for smooth and efficient conduct of business which is envisaged to include entering into the HLIH Group Mandated Transactions which are recurring in nature or in the ordinary course of business with the HLIH Group Mandated Interested Persons, the Directors are seeking the approval of Shareholders (which shall exclude Shareholders who are required to abstain from voting pursuant to Rule 920(1)(b)(viii) of the Listing Manual) for the Proposed Renewal of the HLIH Group IPT Mandate in respect of future transactions that the Group may enter into with the HLIH Group Mandated Interested Persons provided the HLIH Group Mandated Transactions are entered into on an arm's length basis and on normal commercial terms and are not prejudicial to the Company and its minority Shareholders.

The Proposed Renewal of the HLIH Group IPT Mandate will eliminate the need for the Company to announce and convene separate general meetings on each occasion, where necessary, to seek Shareholders' approval for each separate HLIH Group Mandated Transaction to be entered between the Group and the HLIH Group Mandated Interested Person of a revenue or trading nature or those necessary for its day-to-day operations, thereby substantially reducing the time and expenses associated with the convening of such general meetings (including the engagement of external advisers and preparation of documents) on an ad hoc basis, improving administrative efficacy considerably, allowing manpower resources and time to be channeled towards attaining other corporate objectives.

<sup>&</sup>lt;sup>3</sup> Based on information set out in the annual report issued by Southern Steel Berhad for the financial year ended 30 June 2022.

## 5.6 **Guidelines and Review Procedures in respect of the HLIH Group IPT Mandate**

To ensure that the HLIH Group Mandated Transactions are carried out on normal commercial terms and are not prejudicial to the interests of the Company and its minority Shareholders, the Company has put in place guidelines and review procedures for the HLIH Group Mandated Transactions under the proposed HLIH Group IPT Mandate as set out below in this Paragraph 5.6.

In general, these are procedures established by the Group to ensure that the HLIH Group Mandated Transactions with HLIH Group Mandated Interested Persons are undertaken on an arm's length basis and on normal commercial terms consistent with the Group's usual business practices and policies, which are generally no more favourable to the HLIH Group Mandated Interested Persons than those extended to unrelated third parties, and will not be prejudicial to the interests of the Company and its minority Shareholders.

# (a) **Review Procedures**

(i) Sale of products to a HLIH Group Mandated Interested Person

The review procedures are:

- (A) all sale of products to HLIH Group Mandated Interested Persons will be carried out at the prevailing market prices offered by the Group for the same or substantially similar type of products and on terms no more favourable than the usual commercial terms extended to at least two unrelated third party customers for same or substantially similar types of products; and
- (B) where the prevailing market rates or prices are not available due to the nature of the product to be sold, the Group's pricing and terms offered for such products to be sold to HLIH Group Mandated Interested Persons are determined in accordance with the Group's usual business practices and pricing policies, consistent with the usual margin to be obtained by the Group for the same or substantially similar type of transaction with unrelated third parties. In determining the pricing and terms offered to HLIH Group Mandated Interested Persons for such products, the Approving Directors or the Audit and Risk Management Committee (depending on the threshold limit set out in Paragraph 5.6(b) below), shall consider whether the transaction is beneficial to the interests of the Group and taking into consideration factors such as, but not limited to, quantity, volume, consumption, customer requirements and customer's available alternate product.
- (ii) Purchase of products from a HLIH Group Mandated Interested Person

The review procedures are:

(A) all purchase of products from HLIH Group Mandated Interested Persons will be carried out at the prevailing market prices offered to the Group for the same or substantially similar type of products and on terms no more favourable than the usual commercial terms extended to at least two unrelated third party suppliers for same or substantially similar types of products; and

# LETTER TO SHAREHOLDERS

(B) in the event that quotations from unrelated third party vendors cannot be obtained (for instance, if there are no unrelated third party vendors of similar products, or if the product is only available from the HLIH Group Mandated Interested Persons), the Approving Directors or the Audit and Risk Management Committee (depending on the threshold limit set out in Paragraph 5.6(b) below), will determine whether the price and terms offered by the HLIH Group Mandated Interested Persons are fair and reasonable after taking into consideration factors such as, delivery schedules, specification compliance, track record, experience and expertise, and where applicable, preferential rates, rebates or discounts accorded for bulk purchases.

## (b) Threshold Limit

In addition to the above review procedures, depending on whether the value of the contract to be entered into in relation to the HLIH Group Mandated Transactions is within the Financial Limit, the following approval thresholds shall be adopted:

- (i) Each contract with a value falling within the Financial Limit will be reviewed and approved by two (2) Directors (other than Directors with either direct or indirect interest in the transaction(s)) ("**Approving Directors**") and reported to the Audit and Risk Management Committee on a quarterly basis.
- (ii) Each contract with a value exceeding the Financial Limit in value will be reviewed and approved by the Audit and Risk Management Committee prior to the Company's entry into of such HLIH Group Mandated Transaction.
- (iii) Any of the Approving Directors, and the Audit and Risk Management Committee, may, as he/it deems fit, request for additional information pertaining to the transaction under review from independent sources or advisers, including requesting for an independent financial adviser's opinion and/or the obtaining of valuations from independent professional valuers.

## (c) Abstention from decision-making and voting at a Board meeting

If any of the Directors has an interest in the transaction under consideration for approval or is a nominee for the time being of any of the HLIH Group Mandated Interested Persons, or if any associate of such Director is involved in the decision-making process on the part of either or both of the HLIH Group Mandated Interested Persons, the review and approval process shall be undertaken by the remaining Directors who do not have an interest in the transaction under consideration for approval or are not nominees for the time being of the relevant HLIH Group Mandated Interested Person(s), and who are not subject to such conflicts of interest, save that if all of the Directors have an interest in the transaction under consideration for approval, or are nominees for the time being of either or both of the HLIH Group Mandated Interested Persons or are subject to such conflicts of interest, save that if all of the Directors have an interest in the transaction under consideration for approval, or are nominees for the time being of either or both of the HLIH Group Mandated Interested Persons or are subject to such conflicts of interest, the review and approval process shall be undertaken by the Audit and Risk Management Committee or such other senior executive(s) of the Company designated by the Audit and Risk Management Committee from time to time for such purpose.

If a member of the Audit and Risk Management Committee has an interest in a transaction under consideration for approval or is a nominee for the time being of either or both of the HLIH Group Mandated Interested Persons, or if any associate of a member of the Audit and Risk Management Committee is involved in the decision-making process on the part of either or both of the HLIH Group Mandated Interested Persons, he shall abstain from participating in the review and approval process of the Audit and Risk Management Committee in relation to that transaction under consideration for approval.

# LETTER TO SHAREHOLDERS

## (d) Register of Mandated Transactions

The Company will maintain a register of mandated transactions carried out with HLIH Group Mandated Interested Persons (including transactions below S\$100,000 and the HLIH Group Mandated Transactions) (recording the contracts entered into in relation to the HLIH Group Mandated Transactions and basis for pricing and other commercial terms thereunder, including quotations, enquiries and/or reports obtained to support such basis, on which they are entered into).

The Audit and Risk Management Committee will review the register of mandated transactions on a quarterly basis to ascertain that the guidelines and review procedures for HLIH Group Mandated Transactions have been complied with. The Audit and Risk Management Committee shall also review the appropriateness and sufficiency of the guidelines and review procedures for HLIH Group Mandated Transactions at least annually.

## (e) Periodic Reviews

The internal auditors shall annually, or at the request of the Audit and Risk Management Committee, carry out audit reviews on the adequacy and compliance of the internal control system and reporting procedures for HLIH Group Mandated Transactions and will report to the Audit and Risk Management Committee on their findings.

The internal auditors shall annually, or at the request of the Audit and Risk Management Committee, carry out audit reviews to ascertain that the established guidelines and procedures for HLIH Group Mandated Transactions are appropriate and have been adequately complied with.

The Audit and Risk Management Committee shall review these internal audit reports on HLIH Group Mandated Transactions to ascertain that the internal control procedures for HLIH Group Mandated Transactions have been complied with.

If during any of the reviews by the Audit and Risk Management Committee, the Audit and Risk Management Committee is of the view that the established guidelines and review procedures for HLIH Group Mandated Transactions have become inappropriate or insufficient for whatever reason, such as in the event of changes to the nature of, or manner in which, the business activities of the Company or the HLIH Group Mandated Interested Persons are conducted, the Company will seek a fresh mandate from the Shareholders based on new guidelines and review procedures with a view to ensuring that HLIH Group Mandated Transactions will be carried out at arm's length, on normal commercial terms and will not be prejudicial to the interests of the Company and the minority Shareholders. In such a situation, prior to obtaining the new Shareholders' mandate, all transactions with the HLIH Group Mandated Interested Persons will be reviewed and approved by the Audit and Risk Management Committee.

## 5.7 **Excluded Transactions in respect of the HLIH Group IPT Mandate**

The HLIH Group IPT Mandate will not cover any transaction with an interested person that is below S\$100,000 in value, as Chapter 9 of the Listing Manual provides that any such transaction is to be disregarded. However, the SGX-ST may aggregate any such transactions below S\$100,000 that are entered into during the same financial year and treat them as if they were one transaction in accordance with Rule 902 of the Listing Manual. Based on the Group's past transactions with the HLIH Group, a large proportion of the transactions with the HLIH Group may each be below S\$100,000 in value. For good order, the Company will aggregate the purchase and sales orders from the HLIH Group Mandated Interested Persons and subject them to the review procedures under the Proposed Renewal of the HLIH Group IPT Mandate.

Transactions between the Company and HLIH Group Mandated Interested Persons which do not fall within the ambit of the HLIH Group IPT Mandate shall be subject to the relevant provisions of Chapter 9 of the Listing Manual, or other applicable provisions of the Listing Manual, if any.
