

The background of the entire page is a photograph of a complex steel structure, likely a bridge or a large industrial building. The image is taken from a low angle, looking up at the intersecting steel beams and girders. The lighting creates strong highlights and shadows, emphasizing the metallic texture and the geometric complexity of the structure. A large, solid red shape, resembling a stylized 'C' or a partial circle, is overlaid on the right side of the image, framing the logo and the title.

Corporate Profile

BUILDING BETTER

Introduction

Incorporated in 1938 and listed on the Mainboard of the Singapore Stock Exchange in 2000, BRC Asia Limited (“BRC”) is a leading solutions provider for prefabricated reinforcing steel in Singapore, offering products such as 12m standard length rebar, standard and customised welded wire mesh, cut and bend services for rebar and prefabrication service for various structural elements. With the acquisition of Lee Metal Group Ltd in 2018, BRC has become the largest Total Reinforcing Steel Solutions provider worldwide.

BRC’s vision is to prefabricate a major portion of reinforcement for in-situ installation or for precast elements.

By transferring laborious and unproductive in-situ steel fixing work to factory fabrication, substantial benefits in on-site manpower savings, shorter construction cycle, better buildability and productivity can be achieved, leading to a Better, Faster, Cheaper outcome for all stakeholders.

Along with reinforcement, BRC is also the leading supplier of welded fence mesh products in Singapore under the brand name “BRC Weldfence”.

Company Information

SGX Stock Code :	BEC
Paid-up Capital	S\$185 million (as at 1 April 2024)
Market Cap. :	S\$527 million (as at 1 April 2024)
Total Assets :	S\$987 million (as at 31 December 2023)
Net Assets :	S\$445 million (as at 31 December 2023)
Revenue :	S\$399 million (3 Months FY2024)
No. of Employees :	> 1,000

Manufacturing

Manufacturing Plants and Facilities:

Singapore :	110,000 m ²
Malaysia :	38,000 m ²
China :	65,000 m ²

Manufacturing

Manufacturing Capabilities:

Fully automatic mesh welding lines from Europe.

Automated shear lines for rebar cutting from USA and Europe.

Automatic double benders from USA and Europe.

Automatic link benders from Europe.

Storage Capacity :

Inventory of more than 350,000 MT
at any one time.

Fabrication Capacity :

Mesh	}	> 3,000 MT/day
Cut and bend		
Prefabrication		
Fence Fabrication		

Our Philosophy

We believe in forging a strong partnership with the project team from the onset to adopt the best possible prefabricated reinforcing solutions to achieve a **Better, Faster, Cheaper** outcome for all stakeholders.

Our Competitive Advantage

Just-in-time delivery.

Express service (24 hours*)
for cut and bend.

Customer centric culture.

Full suite of prefabricated
reinforcing solutions.

Competent and innovative technical team.

*Terms and conditions apply.
